

# PLYWOOD

for all your construction needs

PERI is one of the leading manufacturers of formwork & scaffolding technology. Through our products and services, our aim is to make construction more efficient, faster and safer, providing the best service to our customers.

At PERI, we understand that different projects (and applications) have different plywood requirements and needs. PERI Plywood sheets are available in various grades according to market requirements.

## Benefits of using PERI Panel Plywood

- High number of reuses to suit your requirements.
- Reliable plywood qualities selected based on your target application.
- Hassle-free services from our professional sales and customer service experts.
- Competitive prices and prompt delivery services.
