PERI SE

Formwork Scaffolding Engineering

Rudolf-Diesel-Strasse 19 89264 Weissenhorn Germany info@peri.com www.peri.com

Important notes

All current safety regulations and guidelines applicable in those countries where our products are used must be observed.

The photos shown in this brochure feature construction sites in progress. For this reason, safety and anchor details in particular cannot always be considered conclusive or final. These are subject to the risk assessment carried out by the contractor.

In addition, the computer graphics used are to be regarded as system representations. To facilitate understanding, these and the detailed illustrations shown have been partially reduced to certain aspects. The safety installations that are not shown in these detailed descriptions must nevertheless be available. The systems or items shown might not be available in every country.

Safety instructions and load specifications are to be strictly observed at all times. Separate structural calculations are required for any deviations from the standard design data.

The information contained herein is subject to technical changes in the interests of progress. Errors and typographical mistakes reserved.

Slab Formwork Components

GIRDER VT-20K

With cap

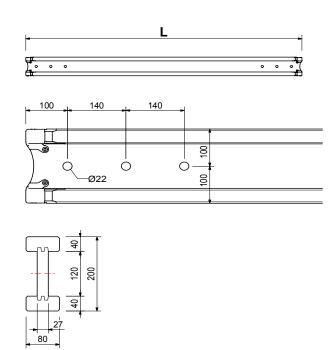

| PERI Article Nr. | Weight / pcs in kg | Length in m |
|------------------|--------------------|-------------|
| 074990 | 8.60 | 1.45 |
| 074905 | 12.70 | 2.15 |
| 074910 | 14.50 | 2.45 |
| 074890 | 15.60 | 2.65 |
| 074920 | 17.10 | 2.90 |
| 074930 | 19.50 | 3.30 |
| 074940 | 21.20 | 3.60 |
| 074950 | 23.00 | 3.90 |
| 074960 | 26.70 | 4.50 |
| 074970 | 29.90 | 4.90 |
| 074980 | 34.80 | 5.90 |

Formwork girder made of wood. To reduce damages the girder ends are protected by rigid steel caps and the webs are rounded.

Note: The girder fulfils all requirements of DIN EN 13377 class P20 (Declaration of Conformity).

Technical Data:

- perm. Q = 11 kN
- perm. M = 5 kNm
- \blacksquare El_v = 460 kNm²; l_v = 4.181 cm⁴

GIRDER VT-20 ALPHA

Universal formwork girder made of wood

| PERI Article Nr. | Weight / pcs in kg | Length in m |
|------------------|--------------------|-------------|
| 073650 | 7.83 | 1.45 |
| 073651 | 11.61 | 2.15 |
| 073652 | 13.23 | 2.45 |
| 073653 | 14.31 | 2.65 |
| 073654 | 15.66 | 2.90 |
| 073655 | 17.82 | 3.30 |
| 073656 | 19.44 | 3.60 |
| 073657 | 21.06 | 3.90 |
| 073658 | 24.30 | 4.50 |
| 073659 | 26.46 | 4.90 |
| 073660 | 31.86 | 5.90 |

High dimensional stability with a chord cross-section of 4 cm \times 8 cm and a 25 mm thick. highly compressed panel for the web.

The girder fulfils all requirements of DIN EN 13377 class P2 (Declaration of Conformity).

Low weight allows handling by one person for girders up tp a length of 4.50 m.

Technical Data:

- perm. Q = 11 kN
- perm. M = 5 kNm
- \blacksquare EI_v = 460 kNm²; I_v = 4.181 cm⁴

Girder VT-20 ALPHA 3S

| PERI Article Nr. | Weight / pcs in kg | Length in m | Quantity pack size* |
|------------------|--------------------|-------------|---------------------|
| 073991 | 11.03 | 2.45 | 50/100 |
| 073992 | 11.93 | 2.65 | 50/100 |
| 073993 | 13.05 | 2.90 | 50/100 |
| 073994 | 14.85 | 3.30 | 50/100 |
| 073995 | 16.20 | 3.60 | 50/100 |
| 073996 | 17.55 | 3.90 | 50/100 |
| 073997 | 20.25 | 4.50 | 50/100 |
| 073998 | 22.05 | 4.90 | 50 |
| 073999 | 26.55 | 5.90 | 50 |
| 073990 | 53.55 | 11.90 | 50/100 |

^{*} May vary. Please directly contact the responsible sales representative for details.

High dimensional stability: three-layer solid wood bridge, boil-proof gluing.

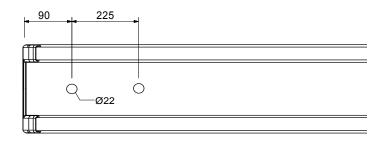

Universally applicable: For slab, beam and special formwork.

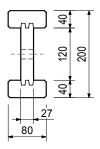

The VT 20 Alpha 3S is classified according to EN 13377:2002 (D) in Girder Class P 20.

Simple handling due to low weight.

Technical Data:

- perm. Q = 11 kN
- perm. M = 5 kNm
- \blacksquare EI_v = 450 kNm²; I_v = 4.181 cm⁴

PEP ALPHA-2

Fulfils DIN EN 1065

| PERI Arti- cle Nr. | Weight / pcs in kg | Minimum length in mm | Туре | Min. load capacity | Max. load capacity |
|-----------------------|-----------------------|----------------------------|-------|--------------------|--------------------|
| 131957 | 13.10 | 1721 | B 300 | 15.5 kN | 32.4 kN |
| 131949 | 15.00 | 1968 | B 350 | 12.1 kN | 34.9 kN |
| 131938 | 14.70 | 1725 | D 300 | 20.6 kN | 36.1 kN |
| 131925 | 18.40 | 1974 | D 350 | 21.1 kN | 36.1 kN |

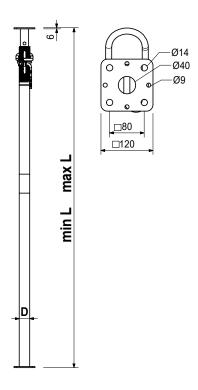

The galvanized PEP Alpha-2 slab prop fulfils Load Class D and B according to DIN EN 1065. The prop types cover a wide range of the usual range of applications for tubular steel props in residential and light commercial construction.

Product advantages at a glance:

- Building authority approved
- Prop lengths: up to 3.00 m / 3.50 m
- Anti-crush device with a hand safety clearance of 10 cm provides protection against injury
- Generous adjustment range of 12 cm
- Adjusting nut is positioned at an ergonomic height of 1.70 m or 2.00 m
- Tripods or frames available as installation aids

Minimum capacity 20 kN for each extension length.

See PERI Data Sheet for PEP Alpha props.

PEP ERGO

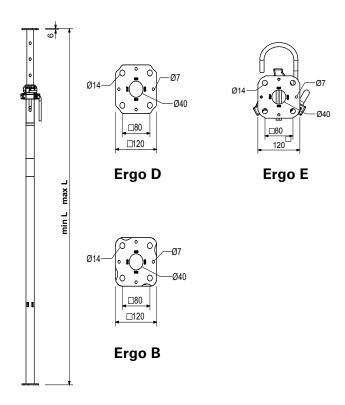

Slab prop made of steel

| PERI Arti- cle Nr. | Weight / pcs in kg | Minimum length in mm | Туре | Min. load capacity | Max. load capacity |
|-----------------------|-----------------------|----------------------------|---------|--------------------|--------------------|
| 116780 | 14.00 | 1970 | B 300 | 15.6 kN | 30.8 kN |
| 116790 | 15.60 | 2250 | B 350 | 12.4 kN | 30.8 kN |
| 117230 | 9.11 | 980 | D 150 | 26.4 kN | 30.8 kN |
| 116770 | 13.10 | 1470 | D 250 | 22.4 kN | 35.0 kN |
| 131360 | 15.90 | 1790 | D 300 + | 20.6 kN | 35.0 kN |
| 131111 | 19.20 | 2080 | D 350 + | 20.7 kN | 40.0 kN |
| 131104 | 19.30 | 1790 | E 300 + | 37.5 kN | 50.4 kN |
| 131085 | 21.70 | 2080 | E 350 + | 30.9 kN | 50.4 kN |

Permissible load: see PERI Design Tables.

The galvanized PEP ERGO slab props fulfil different load classes according to DIN EN 1065.

| 033686 | 33.30 | 3000 | 21.80 | 37.60 | D 550 | 50 |

Slab prop made of steel. Delivered in bundles.

The props fulfil different load classes according to DIN EN 1065.

Red painted:

This is the standard surface finishing and is painted in Ral 3009. It covers the standard requirements when it comes to corrosion resistance and surface finishing.

EN prop galvanized

Electrolytic galvanized

| 033700 | 25.60 | 2200 | 33.20 | 42.80 | E 400 | 50 |

Slab prop made of steel. Delivered in bundles.

The props fulfil different load classes according to DIN EN 1065.

Electrolytic galvanzation:

The electrolytic galvanizing process ensures a surface coating thickness between 10 and 25 microns. The corrosion resistance is reaching an average value of 150 hours when tested with salt spray.

EN prop dip. galvanized

Hot-dip galvanized

| 033704 | 26.50 | 2200 | 33.20 | 42.80 | E 400 | 50 |

Slab prop made of steel. Delivered in bundles.

The props fulfil different load classes according to DIN EN 1065.

Hot-dip galvanization:

This process leads to a minimum surface coating thickness ranging from 50 to 75 microns. This ensures a very long resistance to corrosion and reaches an average value of 800 hours when tested with salt spray.

Hook Strap HB

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 024880 | 0.52 | Galvanized |

For fixing VT Girders on Steel Walers SRZ and SRU, Profile U100, U120 and U140.

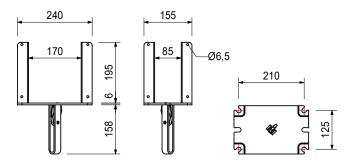

Crosshead 20/24, galvanized

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|-------------------------------|
| 027890 | 3.08 | Without self-locking coupling |
| 028680 | 3.19 | With self-locking coupling |

With or without self-locking coupling. For tilt-resistant support of one or two GT 24 or VT 20 girders.

Required hole diameter of the prop end plate \emptyset 40 mm. Girder overlap on both sides minimum 16.3 cm for GT 24 and 15 cm for VT 20.

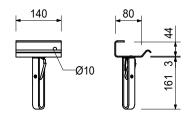

Clawhead 16-20, galvanized

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|-------------------------------|
| 028660 | 1.04 | With self-locking coupling |
| 028670 | 0.94 | Without self-locking coupling |

With or without self-locking coupling. For positioning intermediate props on the VT 20 girder without nailing.

Required hole diameter of the prop end plate Ø 40 mm.

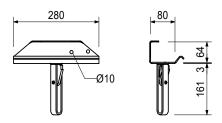

Clawhead 24, galvanized

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|-------------------------------|
| 028880 | 1.54 | Without self-locking coupling |
| 028890 | 1.65 | With self-locking coupling |

With or without self-locking coupling. For positioning intermediate props on the GT 24 girder without nailing.

Required hole diameter of the prop end plate Ø 40 mm.

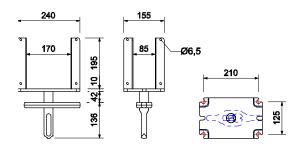

Lowering Head 20/24, galvanized

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 028870 | 5.43 |

For tilt-resistant support of one or two GT 24 or VT 20 girders. Lowering range 4 cm.

Note: Required hole diameter of the prop end plate \varnothing 40 mm. Girder overlap on both sides minimum 16.3 cm for GT 24 and 15 cm for VT 20.

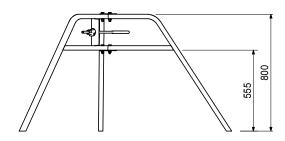

Universal Tripod 57-120

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 028000 | 9.19 |

Erection aid for slab props with \emptyset 57 – 12 mm and 12 x 12 mm. Can also be used in combination with MULTIPROP MP Slab Props and all slab props with Base MP 50.

Only use as erection aid!

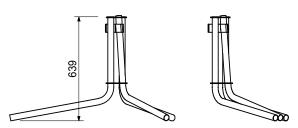

Tripod 44-64

| PERI Article Nr. | Weight / pcs in kg | Height in mm |
|------------------|--------------------|--------------|
| 107152 | 5.81 | 639 |

Erection aid for PEP Ergo Slab Props with \emptyset 44 – 64 mm.

Only use as erection aid!

Crosshead Alpha

| PERI Article Nr. | Weight / pcs in kg | Туре | Quantity in main packaging |
|------------------|--------------------|------------------------------|----------------------------|
| 033539 | 2.40 | Electrolytic galva- nized | 300 |
| 033540 | 2.40 | Hot-dip galva- nized | 300 |

Only for prop class A.

Crosshead Light

| PERI Article Nr. | Weight / pcs in kg | Туре | Quantity in main packaging |
|------------------|--------------------|------------------------------|----------------------------|
| 033541 | 1.00 | Electrolytic galva- nized | 500 |
| 033542 | 1.05 | Hot-dip galva- nized | 500 |

Only for prop class A.

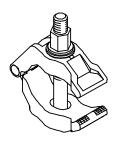

H20 Beam Clamp

| PERI Article Nr. | Weight / pcs in kg | Quantity in main packaging |
|------------------|-----------------------|----------------------------|
| 033546 | 0.60 | 1,000 |

Only for prop class A.

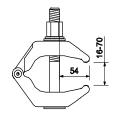

Main Beam Clamp HD

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 106183 | 2.20 | Galvanized |

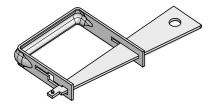

For connecting crossed girders. 2 for each head spindle.

Take official approval into consideration!

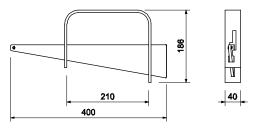

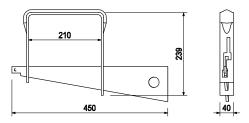

Brace Clamp

| PERI Article Nr. | Weight / pcs in kg | Dimension in mm |
|---------------------|-----------------------|-----------------|
| 027940 | 1.84 | 48 -7 6 |
| 027790 | 2.46 | 76 - <120 |

For assembly of 3 x 15 cm stiffening boards at slab props Ø 48 – 76 mm (027940), as well as Ø 76 – 89 mm and 100 x 100 mm to 120 x 120 mm (027790).

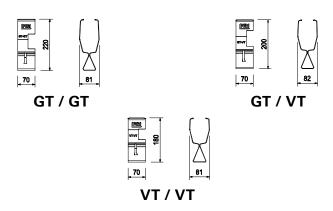

Flexclip

| PERI Article Nr. | Weight / pcs in kg | Туре |
|---------------------|-----------------------|---------|
| 116614 | 0.539 | GT / GT |
| 116605 | 0.495 | GT / VT |
| 116596 | 0.467 | VT / VT |

For connecting girders GT 24 / GT 24, GT 24 / VT 20 or VT 20 / VT 20.

Formwork Technology and Accessories

Shuttering Aids and Clamps

Plastic Slab Stopend Angle

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Height in mm |
|------------------|--------------------|--------------|--------------|
| 126299 | 0.47 | 302 | 203 |

See data sheet!

Stopend Sleeve DW 15

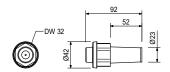

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 065039 | 0.08 |

Anchoring for PERI stopend systems. With nailed plugs.

Accessories:

■ Plug for Stopend Sleeve DW 15 (065060).

Permissible load: see PERI Design Tables.

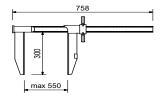

Wall Clamp 55

| PERI Article Nr. | Weight / pcs in kg | Height in mm | Designation |
|------------------|--------------------|--------------|-------------------------|
| 065045 | 5.05 | 300 | Clamping max. 550 mm |

For forming strip foundations, small beams etc..

For utilizing the max. concreting height of 30 cm, we recommend a distance of 1.20 m on foundations.

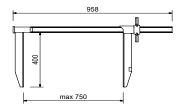

Wall Clamp 75

| PERI Article Nr. | Weight / pcs in kg | Height in mm | Designation |
|------------------|--------------------|--------------|-------------------------|
| 065076 | 6.16 | 400 | Clamping max. 750 mm |

For forming strip foundations, small beams etc..

For utilizing the max. concreting height of 40 cm, we recommend a distance of 1.00 m on foundations.

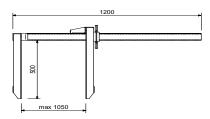

Wall Clamp 105

| PERI Article Nr. | Weight / pcs in kg | Height in mm | Designation |
|------------------|--------------------|--------------|---------------------------|
| 065046 | 12.70 | 500 | Clamping max. 1,050 mm |

For forming strip foundations, small beams etc..

For utilizing the max. concreting height of 50 cm, we recommend a distance of 0.80 m on foundations.

Perforated foundation tie

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 023020 | 16.90 |

For use with Foundation Tie Clamp TRIO, DOMINO, LIWA and HANDSET.

Permissible tension force 12.9 kN.

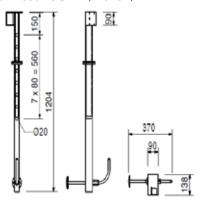

Slab Stopend Bar 105

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 065063 | 6.60 |

For forming with vertical slab stopend formwork for up to 5 cm slab thicknesses. Permissible load: see PERI Design Tables.

Accessories: Guardrail Post HSGP-2 (116292)

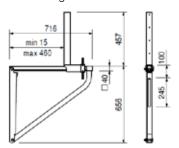

Formwork Bracket-2

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 065062 | 9.81 |

For forming of small cantilevers up to 45 cm and vertical stopends up to 30 cm. Permissible load: see PERI Design Tables.

Stremaform formwork elements are used as lost formwork in floor slabs, ceilings and walls. The expanded metal, that is welded between the bars of a specially designed reinforcing steel mesh, gives rise to a rough surface. The reinforcement can be continued without a break into the second concrete pour.

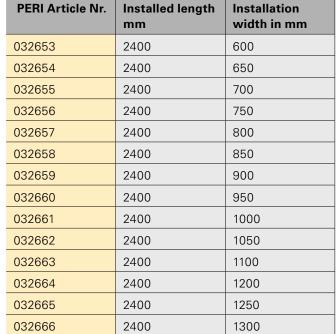

Maximum fresh concrete pressure of 45 kN/m².

Test certificates:

- Assessment report: Stremaform elements in construction joints for constructions according to DIN EN 1992-1-1: Eurocode 2
- Users' declaration for the "Stremaform® system formwork elements for working joints" in walls, base slabs, permanent edging formwork DB Netz AG, Frankfurt

STREMAFORM Standard

Stremaform formwork elements are used as lost formwork in floor slabs, ceilings and walls. The expanded metal, that is welded between the bars of a specially designed reinforcing steel mesh, gives rise to a rough surface. The reinforcement can be continued without a break into the second concrete pour.

1400

Maximum fresh concrete pressure of 45 kN/m².

Pecafil replaces conventional timber or steel shuttering for the in-ground construction of pile caps and ground beams, to provide fast and accurate formwork installation.

Can be formed to any profiles.

Metal sheed

| PERI Arti- cle Nr. | Weight / pcs in kg | Strength in mm | m ² / Bun- dle | m² / Pal- let | Pcs / Pal- let |
|-----------------------|-----------------------|----------------|------------------------------|------------------|-------------------|
| 032939 | 2.10 | 0.3 | 89 | 311.5 | 350 |
| 032940 | 3.02 | 0.4 | 89 | 311.5 | 350 |

Height of the rib approx. 21 mm, dimension: width 445 mm, length 2000 mm.

A galvanized expanded metal sheed is specifically designed for concrete construction. It is produced from hot dipped zinc coated steel and features approx. 21 mm deep ribs running lengthwise across the sheet. It can be used for construction joints and stop ends.

Plaster base panel 4mm

| PERI Ar- ticle Nr. | • | Stren- gth in mm | m² / Bundle | m² / Pal- let | Pcs / Bundle | Pcs / Pallet |
|-----------------------|------|------------------------|----------------|------------------|-----------------|-----------------|
| 032942 | 1.32 | 0.3 | 30 | 600 | 20 | 400 |

Height of the rib approx. 4 mm, dimension: width 600 mm, length 2500 mm.

Plaster base panel made of galvanised sheet steel. Very well suited for use with thin plaster layers. The 4 mm-high ribs make it very stable while retaining good ductility. Easily adaptable to all geometric forms.

Plaster base panel 8mm

| PERI Ar- ticle Nr. | • | Stren- gth in mm | m² / Bundle | m² / Pal- let | Pcs / Bundle | Pcs / Pallet |
|-----------------------|------|------------------------|----------------|------------------|-----------------|-----------------|
| 032941 | 1.77 | 0.3 | 30 | 600 | 20 | 400 |

Height of the rib approx. 8 mm, dimension: width 600 mm, length 2500 mm.

Plaster base panel made of galvanised sheet steel. The small mesh size ensures better anchoring of the plaster. The 8mm-high ribs make it very robust and highly resistant while retaining good ductility. Easily adaptable to all geometric forms.

Shuttering Strips

Sealing Tape

| PERI Arti- cle Nr. | Weight / pcs in kg | Length in m | Width in mm | Height in mm | Designa- tion |

With Zemdrain

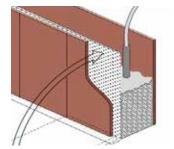

Controlled permeability formliner. Improves the concrete surface and therefore increases quality and durability.

One time use. Width tolerance ± 2 cm.

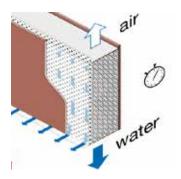

To be installed with article number 032203, 032204 and 032205.

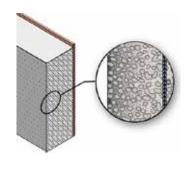

Test certificates:

- BBA certificate
- Suitable for drinking water according to W270 and W347
- Comparative tests on concrete test specimens which were produced with water draining Zemdrain® formwork and conventional formwork
- Comparison of concrete surfaces made with Zemdrain® Classic and Zemdrain® MD

Without

Zemdrain MD

- Comparative tests on concrete test specimens which were produed with water draining Zemdrain® formwork and conventional formwork
- Comparison of concrete surfaces made with Zemdrain® Classic and Zemdrain® MD

Zemdrain double-sided tape

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032297 | 0.70 |

Special double-sided adhesive tape 50 mm \times 0.5 mm - 50 lin.m., adhesive on both sides for fixing Zemdrain® formwork liners. Not suitable for use in drinking water applications.

Zemdrain cover tape

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032299 | 0.35 |

Zemdrain® cover tape 50 mm x 0.5 mm - 10 m.; Zemdrain® laminated self-adhesive tape for covering formwork joints, stapled Zemdrain® joints, for repair of any damaged Zemdrain® surfaces or for edge coverage of lined used formwork elements (it is possible that some isolated small blowholes will occur in the vicinity of the adhesive tape due to the impermeability of the adhesive film). Not suitable for use in drinking water applications.

Zemdrain acc cover tape DW

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032301 | 0.38 |

Zemdrain® cover tape 50 mm - 30 m. For covering formwork joints in the drinking water sector, attachment with staples. No self-adhesive tape.

Zemdrain acc foamed joint tape

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032302 | 0.10 |

Foamed plastic joint tape 19 mm \times 6 mm - 10 lin.m. For covering formwork joints. Not suitable for drinking/potable water and reservoir applications.

Zemdrain MD double-sided tape

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032298 | 0.31 |

MD-fixing tape 50 mm x 1.0 mm - 10 lin.m/roll; double-sided adhesive tape, white, for fixing and sealing of Zemdrain® MD to formwork (it is possible that some isolated small blowholes will occur in the vicinity of the adhesive tape due to the impermeability of the adhesive film). Not suitable for use in drinking water applications.

Tie Technology

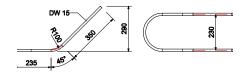

Brace Frame Double Anchor DW15

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 030060 | 2.13 |

Non-weldable! Take approval into consideration!

Permissible load 2 x 9 kN. Dependent on concrete strength and installation depth.

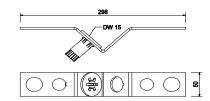

V-Tie Holder

| PERI Article Nr. | Weight / pcs in kg | Туре |

Spacer Tube made of fibre reinforced concrete for use with Tie Rod DW 15, wall thickness 9 mm, asbestos-free!

Column Formwork

Fast pouring of different shaped columns with single use column formwork.

Product advantages:

- 100% water-resistant and can be stored outside without damaging the quality of the tubes. The installation is possible in all weather conditions without problems.
- MONOTUB and NEVOTUBE formworks provide a perfect concrete surface.
- Cost-effectiveness
- Fast an economical to use. Several columns can be poured in one working stage, guaranteeing optimum building progress on site. Extremely light and easy to handle during transport and erection. In the most of cases are no crane required on site.
- Eco-friendly. No cleaning and return of the formwork necessary. Requires no mould oils or release agents. Unproblematic waste disposal.
- Different shapes and forms available on request.

MONOTUB smooth

Perfect facing concrete! With the integrated zipp-off the columns are stripped easily in seconds.

On columns with diameter 650 mm or bigger two vertical joints of the PVC insert will remain visible on the column. From 7 meter $\pm 10\%$ surcharge!

If self-compacting concrete is used, the casting speed needs to be halved.

MONOTUB spiral

Perfect facing concrete! With the integrated zipp-off the columns are stripped easily in seconds.

On columns with diameter 650 mm or bigger two vertical joints of the PVC insert will remain visible on the column. From 7 meter $\pm 10\%$ surcharge!

If self-compacting concrete is used, the casting speed needs to be halved.

Unassembled folding box-out shutters

Box-out shutters unmounted including sheet metal screws. Holes for the screws are predrilled. Corners are pre-punched for an easy folding.

All measures are internal dimensions (when ordering always indicate internal dimensions).

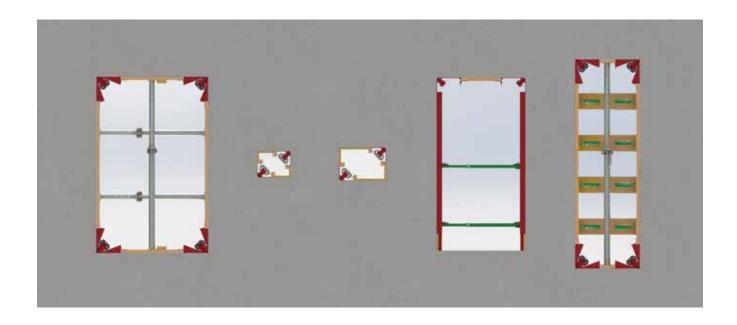

Box-Out Formwork - Flexible recess sizes

Fast striking of different widths and heights for a range of wall thicknesses

The Box-Out Formwork can be combined with any panel formwork system. Thanks to its suitability for accommodating different wall thicknesses, widths and heights, it can be used extremely flexibly.

It is suitable for wall thicknesses of 15, 18, 20, 24, 25 and 30 cm. In the process, different colours provide a quick overview of the respective wall thickness. Thanks to the telescoping possibility, the door height can be flexibly adjusted from 200 to 250 cm. Door widths between 88.5 and 200 cm can be struck using the Multi Element, whilst the VARIO Element allows for completely flexible width adjustment.

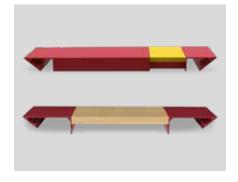

The striking of VARIO Box-Out openings is possible from 75 to 300 cm; In the case of wider openings, tube filling can also be carried out. Thereby, the formlining thickness can be adjusted between 21 and 55 mm without requiring any tools. Any residual length compensation can easily be realised using multi-layer panels, formwork panels or planks.

Box-Out Formwork for wall thicknesses of 20, 24, 25 and 30 cm are characterised by the use of different colours.

Thanks to the telescoping possibility, door heights of 200 to 250 cm can be struck.

With the Multi and the VARIO Elements, it is possible to carry out a range of door and window width adjustments.

Cost-effective forming

through simple and fast assembly operations directly on site with reduced material requirements and labour cost savings of up to 80 per cent.

Highest product quality

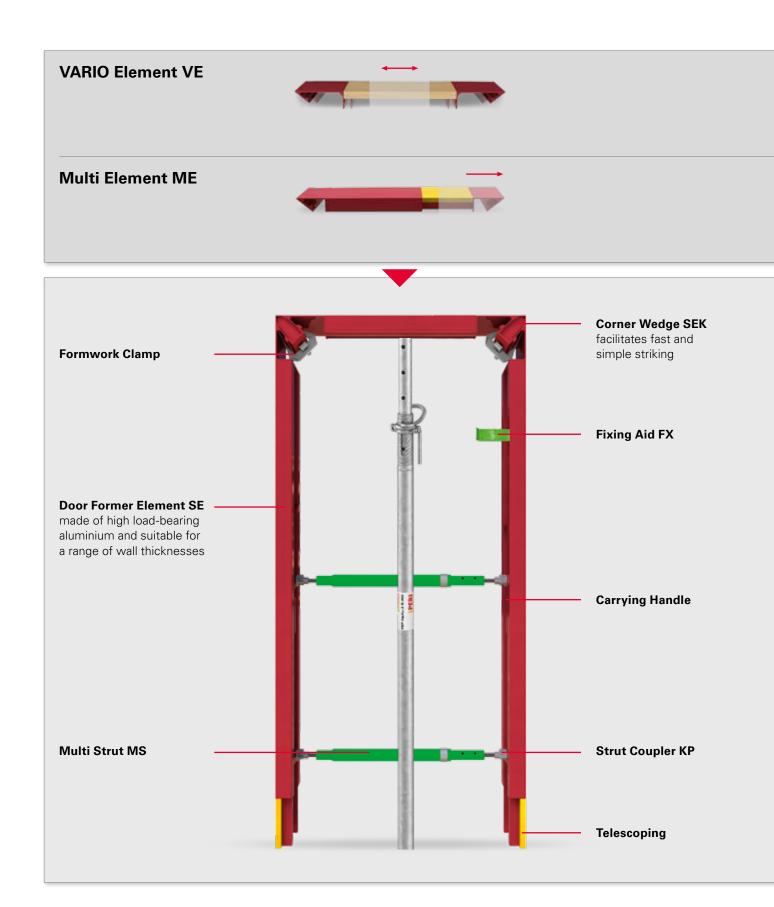

and a long service life due to the powder coating, as well as consistent formwork results with every application.

Flexible recess sizes

due to the tool-free adjustment range of the formlining thickness, variable leg lengths and adjustable widths.

Box-out formwork for doors at a glance

is suitable for all door widths as well as recesses in walls and decks from 75 to 300 cm wide. The formlining thickness can be adjusted between 21 and 55 mm without requiring any tools.

can be adjusted precisely and flexibly to accommodate door widths from

- with 20 cm, 24 cm, 25 cm elements: 88,5 cm to 190 cm
- with 30 cm element: 101 cm to 200 cm

All three elements are marked in different colours to facilitate fast wall thickness identification and are thereby suitable for the following wall thicknesses:

- 30 cm
- 25 cm
- 24 cm
- 20 cm

Multi Strut MS

available in the following options: MS-130 (88.5 - 130 cm lengths), MS-190 (130 - 190 cm lengths) and MS-300 (190 - 300 cm lengths) to ensure a secure hold and connection of the formwork elements

Formwork Clamp

firmly and reliably connects the forming components and system corner parts

Fixing Aid FX

serves to attach the door formwork to the setting formwork

Carrying Handle

for optimal and safe handling of the formwork elements.

Strut Coupler KP

for quick and easy attachment of the Multi Struts to the formwork element

Telescoping

for flexible adjustment of the door height between 200 and 250 cm

Nailing Strip for wall thickness element for 30 cm

for optimal and safe handling of the formwork elements

- Easy mounting and higher strength due to the integrated nailing strip
- Simple screw connection for individual wall thicknesses

| 117326 | 19.70 | 2600 | 1097 | 127 |

Temporary guardrail for open slab edges. The powder-coated system also provides flexible solutions for complex building geometries without any planning effort, combined with a high level of robustness. The relevant components can be installed easily, quickly and safely and adapted to the conditions on site. Suitable for application with MAXIMO MXK Console system.

Maximum distance with Side Mesh Barrier: PMB 260 max. 2.40 m.

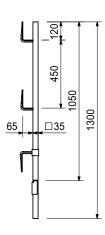

Guardrail Post HSGP-2

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 116292 | 4.72 | |

As guardrail for different systems.

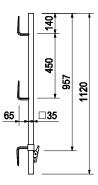

Post PP

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 117325 | 4.27 | |

For the fixation of the Side Mesh Barriers.

Maximum distance of posts with Side Mesh-Barrier: PMB 260 max. 2.40 m.

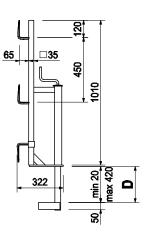

Guardrail Holder-2

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 115151 | 10.30 | |

For mounting a fall protection on concrete slabs for up to 40 cm slab thicknesses or formwork girder / timber of up to 30 cm height.

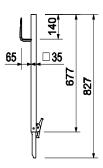

Post Extension PPE

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 118296 | 2.91 |

For increasing the guardrail to 1.75 m.

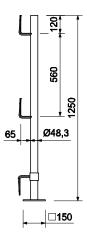

Handrail Post PD8

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 019040 | 6.48 | |

As guardrail for different systems. Screwed onto sub-structure.

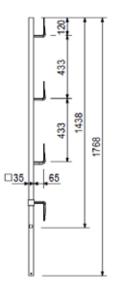

Handrail Post SGP

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 061260 | 6.15 |

As guardrail for different systems.

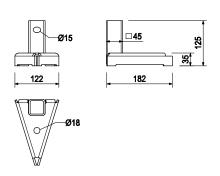

Slab Foot PDF

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 117323 | 1.53 | |

For mounting a guardrail on ceiling edges. Maximum post spacing with side guards: PMB 260 max. 2.40 m.

Accessories: Anchor bolt (132889) and Post PP (117325)

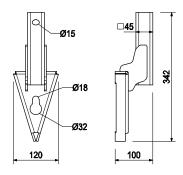

Side Foot PSF

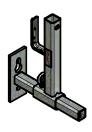

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 117324 | 2.21 |

For assembly of a guardrail on or at walls and stairs. Maximum distance of posts with Side Mesh Barrier: PMB 260 max. 2.40 m.

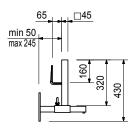

Front Guardrail Holder ADJ PFH

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 118670 | 5.03 | |

For mounting safety barriers to slab edges and stairs. Position of side protection adjustable.

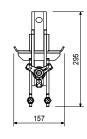

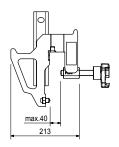

Sheet Piling Clamp

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 126330 | 4.60 | |

For assembly of a guardrail on sheet pillings.

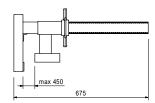

Uni Clamp PUC

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Height in mm | Width in mm |
|---------------------|-----------------------|--------------|-----------------|----------------|
| 118660 | 6.61 | 675 | 300 | 80 |

For the assembly of a guardrail on the front side of slabs or on railings.

Maximum distance of posts with Side-Mesh- Barrier: PMB 260 max. 2.4 m. **Accessories:** Post PP (117325)

EYELET-2 PE

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 117200 | 0.24 |

For easy interconnection of tension belts.

WALL FIXING PWF

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 118405 | 0.92 |

For attaching the tension belts to concrete walls.

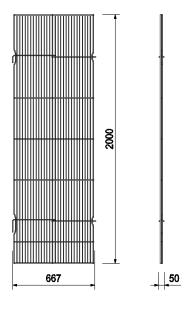

Fold Mash Room Height PFR

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 118350 | 7.69 |

Needs horizontal support (e.g. tension belts).

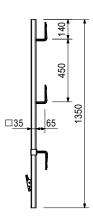

Gurardrail Post MXK

| PERI Article Nr. | Weight / pcs in kg | |
|------------------|--------------------|--|
| 126360 | 4.92 | |

As guardrail for MAXIMO and TRIO.

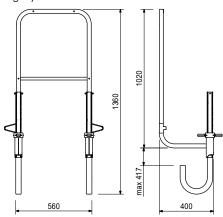

End Handrail Frame 55

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 065066 | 14.80 |

Clampable end guardrail for all PERI Scaffold Platforms and Climbing Systems.

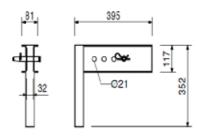

Handrail Holder GT24/VT20

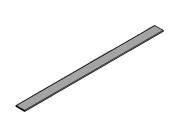

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 101290 | 5.67 |

For assembling a guardrail to GT 24 and VT 20 Girders.

Accessories: Handrailposts 116292 and 061260

EDGE PROTECTION HOSE PEH

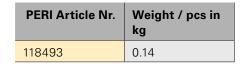

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 118494 | 0.22 |

To protect the edges and the tension belt.

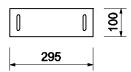

EDGE PROTECTION PLATE PEP

To protect the edges.

Side Mesh Barrier PROKIT New Generation

Access Solution

Walkway Mat

Durable walkway protection to move around safely in all weather conditions. In addition, it can be used for guidance purposes on construction sites, reducing the risk of accidents by clearly marking walkways.

Available for unprepared or ready prepared surfaces.

Characteristics:

- UV light resistant
- All weather suitable
- Oil resistant
- Fire resistant
- Frost resistant
- Chemical resistant
- Energy absorbing
- High visability

Truck Loading Platform

| PERI Article Nr. | Weight / pcs in kg | Dimension in mm | Туре |
|------------------|--------------------|-----------------|-------------------------|
| 033641 | 900.00 | 6100 × 1000 mm | Hot-dip galva- nized |

Truck loading platform ensures safe and fast material handling.

Product advantages:

- The access level and stairs can be moved sideways 380 mm, which means that the access level can be moved close to the flatbed trailer, making cargo handling safe.
- The access level and stairs are made using anti-slip gratings, that ensure safe walking on the platform, even during winter.
- Stairs can be attached to either end of the platform. Safety barriers for the long sides are standard.
- By combining four platforms, you can create a full truck-length unloading station.
- The truck loading platforms can be loaded on top of each other for transport and storage.
- Four truck loading platform modules with fittings can be transported by a truck on a 6 m long flatbed.

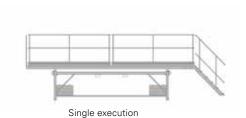

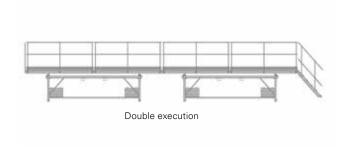

Stairway for Loading Platform

| PERI Article Nr. | Weight / pcs in kg | Quantity in main packaging | Туре |
|------------------|--------------------|----------------------------|-------------------------|
| 033642 | 68.00 | 2 | Hot-dip galva- nized |

Stairway for loading platform.

Stairway

| PERI Article Nr. | Weight / pcs in kg | Width in mm | Quantity in main pack-aging | Туре |
|---------------------|-----------------------|----------------|-----------------------------|---------------|
| 033635 | 54.00 | 1000 | 10 | 3 step stair |
| 033636 | 72.00 | 1000 | 10 | 6 step stair |
| 033637 | 97.00 | 1000 | 10 | 9 step stair |

| 033639 | 172.00 | 1000 | 5 | 15 step stair |
| 033640 | 214.00 | 1000 | 5 | 18 step stair |

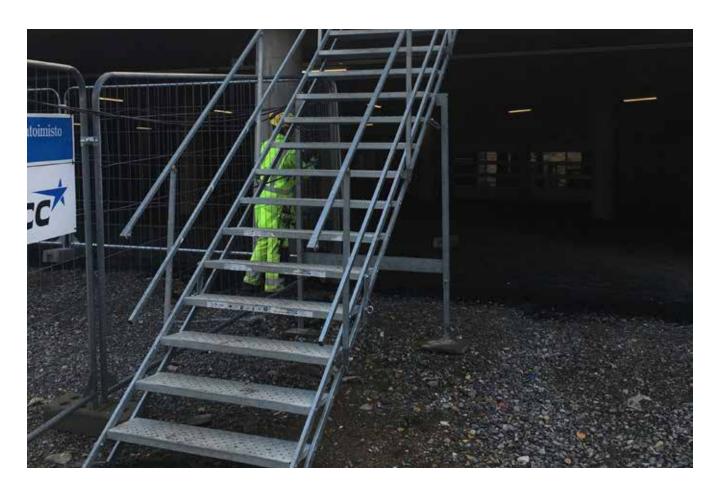

Stairways for construction sites. They make it easy and safe to move between floors of a construction site.

The Stairways are easy to install and use, and convenient to transport and store. The one-meter width of the stairways allows two-way access.

All stairs are delivered with handrails on both sides.

They are designed according to the European standard EN 12811-1 and hot-dip galvanized for long lifetime.

Compatible with packing material: EUR Pallet. Transportation either folded or pre-assembled.

Safety for Reinforcement

NEVOSAFE safety cap

Without steel core - No fall protection!

| PERI Article Nr. | For iron Ø mm | Pcs per Bag / Box / Sack | Pcs / Pallet |

| 032932 | 8 | 4,000 x 1,285 |
| 032933 | 51 | 4,000 x 1,220 |
| 032934 | 53 | 4,000 x 1,210 |
| 032935 | 57 | 4,000 x 1,200 |

More than 50 designs available!

Formliners can be easily applied to any type of formwork, both vertically and horizontally. The formliners provides different textures and reliefs on the concrete finishing.

High quality, limited weight, fast application and 100% recyclable!

Length and with tolerance +/- 2.0 mm.

Formwork liner glue spray

| PERI Article Nr. | Quantity pack size | Pcs per Bag / Box / Sack |
|------------------|--------------------|-----------------------------|
| 032936 | 400 g | 1 |

Glue-spray 40 g = +/- 15 m².

Formwork liner joint sealing

| PERI Article Nr. | Width / coil in mm | Quantity of coil | Pcs per Bag / Box / Sack |
|------------------|-----------------------|------------------|-----------------------------|
| 032938 | 300 | 50 m | 1 |

Tape for joint sealing 300 mm x 50 m.

Formwork liner glue canister

| PERI Article Nr. | Quantity pack size | Pcs per Bag / Box / Sack |
|------------------|--------------------|-----------------------------|
| 032937 | 201 | 1 |

Coat the edges and put the glue with an interval of \pm 20 cm on the formwork liner.

Liquid glue in canister 20 l = \pm -300 m².

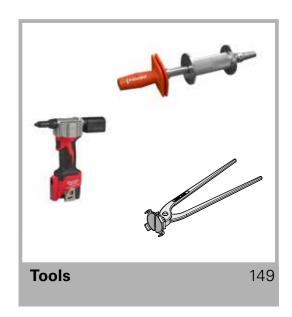

Sealing Technology

DK /SK System

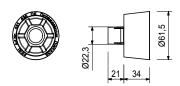

DK Sealing Cone DW 15/35

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 031635 | 0.04 | 15 / 35 |

For fire-resistant and soundproof anchor points with DW 15. Resistant to seepage. For use with Spacer Tube rough 22.

Delivery unit 50 pieces.

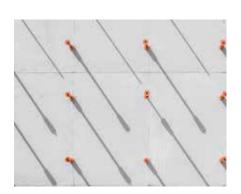

DK Sealing Cone DW 15/55

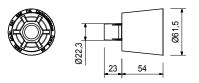

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 031636 | 0.06 | 15 / 55 |

For waterproof, fire-resistant and soundproof anchor points with Tie Rod DW 15. Used with Spacer Tube rough 22.

Delivery unit 50 pieces.

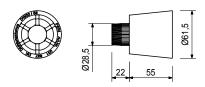

DK Sealing Cone DW 20/55

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 031637 | 0.06 | 20 / 55 |

For waterproof, fire-resistant and soundproof anchor points with Tie Rod DW 2. Use with Spacer Tube rough 28.

Delivery unit 50 pieces.

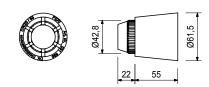

DK Sealing Cone DW 26/55

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 031638 | 0.05 | 26 / 55 |

For waterproof, fire-resistant and soundproof anchor points with Tie Rod DW 26. Used with Spacer Tube rough 42.

Delivery unit 50 pieces.

SK Anchor Cone-2 DW 15

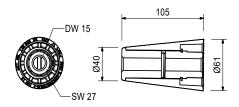

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 126609 | 0.59 |

For waterproof, fire-resistant, soundproof and radiation-proof anchor points with Tie Rod DW 15. Suitable for vaults and strongrooms.

Permissible tension force 90 kN.

Tie rod length = wall thickness - 2×55 mm.

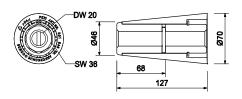

SK Anchor Cone DW 20

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 031646 | 1.03 |

For waterproof, fire-resistant, soundproof and radiation-proof anchor points with Tie Rod DW 20. Suitable for vaults and strong rooms.

Permissible tension force 150 kN. Tie rod length = wall thickness - 2×65 mm.

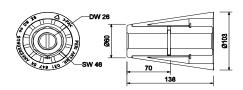

SK Anchor Cone DW 26

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 031647 | 1.92 |

For waterproof, fire-resistant, soundproof and radiation-proof anchor points with Tie Rod DW 26. Suitable for vaults and strongrooms.

Permissible tension force 250 kN. Tie rod length = wall thickness - 2 x 75 mm.

Magnetic Cone MX

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|-------------------|
| 112937 | 0.17 | Yellow - For MX15 |
| 127425 | 0.16 | Red - For MX18 |

For use with MAXIMO. Use with Anchor MX.

For the use with waterproofed concrete or architectural concrete.

Sealing Ring UNI DW15

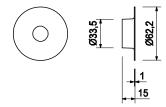

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 031639 | 0.01 |

For sealing DK Sealing Cones DW 15 and SK Anchor Cones DW 15 on the formwork side.

Delivery unit 50 pieces.

When using the SK Sealing Cover with SK Anchor Cone, the tie rod must be shortened by 1 mm on each side.

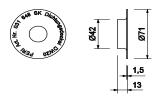

SK Sealing Ring DW20

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 031648 | 0.01 |

For sealing SK Anchor Cones DW 20 on the formwork side. Delivery unit 50 pieces.

When using the SK Sealing Cover with SK Anchor Cone, the tie rod must be shortened by 1,5 mm on each side.

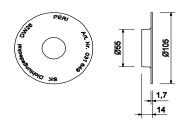

SK Sealing Ring DW26

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 031649 | 0.01 |

For sealing SK Anchor Cones DW 26 on the formwork side. Delivery unit 50 pieces.

When using the SK Sealing Cover with SK Anchor Cone, the tie rod must be shortened by 2 mm on each side.

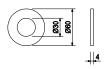

Sealing Ring EPDM

| PERI Article Nr. | Weight / pcs in kg | Dimension in mm |
|------------------|--------------------|-----------------|
| 126013 | 0.002 | 60 x 15 x 4 |

For spacer tube rough and for SK Cone DW26.

Tube Seal

| PERI Article Nr. | Weight / pcs in kg | For tube Ø mm |
|------------------|--------------------|---------------|
| 031671 | 0.002 | 22 |
| 031672 | 0.003 | 28 |

For spacer tube rough. Delivery unit 25 pieces.

DK Concrete Cone DW 15-58/30

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 031642 | 0.15 | 58 / 30 |

For closing anchor points with DK Sealing Cone DW 15/35, DW 15/55, DW 2/55, DW 26/55, SK Anchor Cone DW 15, Magnet Cone MX 15 - 55, Magnet Cone MX 18 - 55, Arch. Leading Cone M24.

If the Concrete Cone DW 15-58/30 is installed in an offset manner, the Repoxal adhesive 031550 must be used. In that case the tie point does not comply with Fire Resistance Class F 90.

Delivery unit 50 pieces. Glued with PERI Glue 131709.

- Suitable for drinking water according to DVGW Technical Standard W 270
- Gas impermeability
- Fire Resistance Class F 90 according to DIN 4102, Part 4, when installed flash-mounted with PERI - Glue

DK Concrete Cone UNI 58/52

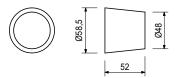

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 031643 | 0.24 | 58 / 52 |

For closing anchor points with DK Sealing Cone DW 15/55, DW 2/55, DW 26/55, SK Anchor Cone DW 15, Magnet Cone MX 15 - 55, Magnet Cone MX 18 - 55, Arch. Leading Cone M24.

Delivery unit 50 pieces. Glued with PERI Glue 131709.

Test certificates:

- Suitable for drinking water according to DVGW Technical Standard W 270
- Fire Resistance Class F 90 according to DIN 4102, Part 4
- Sound insulation
- Water penetration depth up to 5 bar according to DIN EN 12390-8
- Gas impermeability
- Suitable for strongrooms, when used with SK Cone DW15 and a lost tie
- Suitable for radiation proof areas, when used with a SK Cone DW 15, lead cone and lost tie rod

DK Concrete Cone 02 - DW 15-58/52

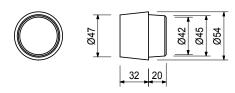

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 132972 | 0.26 | 58 / 52 |

For closing anchor points with DK Sealing Cone DW 15/55, DW 2/55, DW 26/55, SK Anchor Cone DW 15, Magnet Cone MX 15 - 55, Magnet Cone MX 18 - 55, Arch. Leading Cone M24 with corresponding architectural requirements.

Delivery unit 50 pieces. Glued with PERI Glue 131709.

- Suitable for drinking water according to DVGW Technical Standard W 270
- Gas impermeability

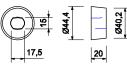

SK Lead Cone DW15

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 104643 | 0.26 |

For closing tie holes with SK Anchor Cone DW 15 and Concrete Cone 031643 for radiation-proof areas.

SK Concrete Cone DW20

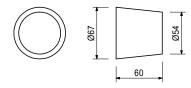

| PERI Article Nr. | Weight / pcs in kg | Dimension in mm |
|------------------|--------------------|-----------------|
| 031650 | 0.36 | 67 / 60 |

For closing anchor points with SK Anchor Cone DW 2.

Delivery unit 50 pieces. Glued with PERI Glue 131709.

Test certificates:

- Suitable for drinking water according to DVGW Technical Standard W 270
- Gas impermeability
- Sound insulation
- Suitable suitable for high security areas, when used with a lost tie rod

SK Concrete Cone DW26

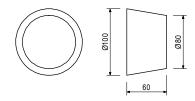

| PERI Article Nr. | Weight / pcs in kg | Dimension in mm |
|------------------|--------------------|-----------------|
| 031651 | 0,80 | 100 / 60 |

For closing anchor points with SK Anchor Cone DW 26.

Delivery unit 50 pieces. Glued with PERI Glue 131709.

- Suitable for drinking water according to DVGW Technical Standard W 270
- Gas impermeability
- Suitable suitable for high security areas, when used with a lost tie rod.

KK Concrete Cone

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Туре |
|---------------------|-----------------------|--------------|---|
| 031652 | 0.25 | 67 / 52 | For Climbing Cone-2, M24/ DW 15 and Screw-On Cone-2 M24/DW 20 |
| 031653 | 0.36 | 80 / 52 | For Climbing Cone-2, M30/ DW 20 or Screw-On Cone M30/DW 26. |
| 031654 | 0.51 | 90 / 52 | For Climbing Cone-2 M36/ DW 26. |

For closing anchor points with Climbing Cone-2 and Screw-On Cones Delivery unit 50 pieces. Glued with PERI Glue 131709.

Test certificates:

Suitable for drinking water according to DVGW Technical Standard W 270

PERI Cone Glue-3

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|---------------------|
| 131709 | 9.98 | 6 - cans set |
| 131710 | 0.89 | 1 can - Component A |
| 131711 | 0.67 | 1 can - Component B |

For bonding PERI Concrete Cones.

See Safety Data sheet!

A set consisting of:

- 6 x Component A
- 6 x Component B
- 2 x Stirring Container
- 3 x Stirring Staff

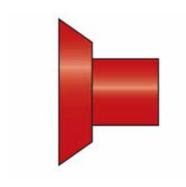

Characteristics:

- 2-component adhesive
- Grey concrete colour
- Processing time of 1 hour at 23 °C
- Salt water resistant
- Heat and cold resistant
- Acid resistant to limited extent

- Suitable for drinking water and containers for foodstuffs according to the he DVGW (German Technical and Scientific Association for Gas and Water)
- Fire resistant class F90

Fibre concrete cone system

Cone

| PERI Article Nr. | Designation | Inside Ø mm | Installed length mm | Pcs per Bag / Box / Sack |
|---------------------|--------------------------|-------------|------------------------|-----------------------------|
| 032436 | Cone Ø 22 - 1 cm deep | 22 | 10 | 2,500 |
| 032437 | Cone Ø 22 - 3 cm deep | 22 | 30 | 1,000 |
| 032438 | Cone Ø 22 - 5 cm deep | 22 | 50 | 250 |
| 032439 | Cone Ø 27 - 1 cm deep | 27 | 10 | 2,500 |

For fibre cocnrete tubes.

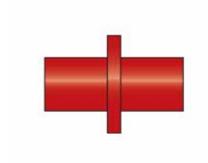

Cone incl. flat gasket

| PERI Arti- cle Nr. | Designation | Inside Ø mm | Installed length mm | Pcs per Bag / Box / Sack |
|-----------------------|--|----------------|------------------------|--------------------------------|
| 032444 | Cone Ø 22 - 1 cm deep incl. flat gas- ket 2 mm | 22 | 10 | 250 |
| 032445 | Cone Ø 22 - 1 cm deep incl. flat gas- ket 8 mm | 22 | 10 | 250 |
| 032446 | Cone Ø 22 - 3 cm deep including flat gasket 2 mm | 22 | 30 | 250 |
| 032447 | Cone Ø 22 - 3 cm deep incl. flat gas- ket 6 mm | 22 | 30 | 250 |

The flat gasket made of an absorbent plastic. The porous seal between the face of the formwork and the sealing cap ensures a balanced water content at the surface. Surplus concreting water and air bubbles are drained away and the formation of concrete honeycombs is prevented.

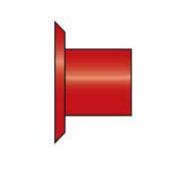

Coupling

| PERI Article Nr. | Inside Ø mm | Installed length mm | Pcs per Bag / Box / Sack |
|------------------|-------------|------------------------|-----------------------------|
| 032441 | 22 | 3 | 2,000 |
| 032442 | 27 | 3 | 250 |

Coupling for connecting two distance tubes

Sealing cap cone

| PERI Article Nr. | Inside Ø mm | Installed length mm | Pcs per Bag / Box / Sack |
|------------------|-------------|------------------------|-----------------------------|
| 032433 | 22 | 1 | 3,750 |
| 032434 | 27 | 1.5 | 250 |

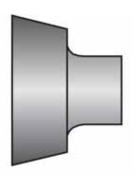

Flat gasket

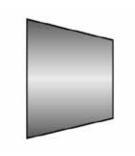

| PERI Article Nr. | Designation | Inside Ø mm | Pcs per Bag / Box / Sack |
|---------------------|--|-------------|-----------------------------|
| 032450 | Ø 36 x Ø 20 x 2 mm; self-adhesive for cone 032436 | 22 | 100 |
| 032451 | Ø 36 x Ø 20 x 8 mm; self-adhesive for cone 032436 | 22 | 100 |
| 032452 | Ø 39 x Ø 25 x 2 mm; self-ad- hesive for cone 032437 and 032438 | 22 | 100 |
| 032453 | Ø 39 x Ø 25 x 6 mm; self-ad- hesive for cone 032437 and 032438 | 22 | 100 |
| 032454 | Ø 45 x Ø 24 x 2 mm; self-ad- hesive for cone 032439 | 27 | 100 |

The flat gasket made of an absorbent plastic.

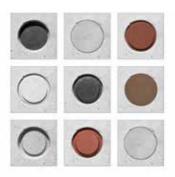

Fibre concrete cone

Cone with spigot

Cone, flush

Different colours and shapes are available on request.

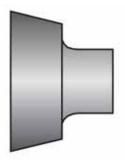

| PERI Article Nr. | Designation | Weight / pcs in kg | Pcs / carton |
|---------------------|---|-----------------------|--------------|
| 032281 | Flush, suitable for cone Ø 22 - 3 cm, Ø42,9 x Ø31 x 28mm | 0.06 | 100 |
| 032282 | Flush, suitable for steel-plastic cone, Ø59 x Ø50 x 40mm | 0.19 | 100 |
| 032285 | With spigot, flush, suitable for cone Ø 22 - 1 cm, Ø41 x Ø21,6x 22mm | 0.03 | 100 |
| 032286 | With spigot, flush, suitable for cone Ø 22 - 3 cm, Ø42,6 x Ø21,6 x 40mm | 0.06 | 100 |

Fibre reinforced sealing cone for closing conical anchor holes and as design material for exposed concrete surfaces. Glued in with REPOXAL glue (031550).

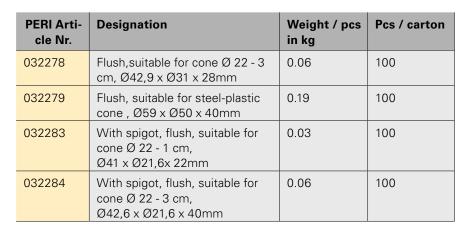

Special shapes and modified concrete mixes for specific applications (high sulfate, chlorine,...) can be produced on request. The cones are available in the standard colours anthracite, grey, sienna red and white.

- Water penetration depth up to 5 bar
- Fire behaviour F180
- Sound insulation

Fibre concrete cone TW

Cone TW with spigot

Fibre reinforced sealing cone for closing conical anchor holes and as design material for exposed concrete surfaces. Glued in with REPOXAL drinking water glue.

Special shapes and dimensions can be produced on request. The cones are available in the standard colours anthracite, grey, sienna red and white.

Test certificates:

- Water penetration depth up to 5 bar
- Fire behaviour F180
- Sound insulation
- Drinking water approval according to DVGW Code of Practice W 347

Repoxal Glue

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 031550 | 1.00 |

Two-component adhesive for bonding fibre reinforced concrete plugs and cones.

See Safety Data sheet!

Delivery unit 1 kg.

RiveStop System

RIVEPIPE 21

| Compressive | strenath: | 700kaF |
|-------------|-----------|--------|

| PERI Article Nr. | Length in mm | Inside Ø mm | Outside Ø mm | Desig- nation | Pcs per Bag / Box / Sack |
|------------------|-----------------|----------------|-----------------|------------------|-----------------------------------|
| 033567 | 175 | 17 | 25 | Male | 100 |
| 033568 | 195 | 17 | 25 | Male | 100 |
| 033569 | 5 | 17 | 25 | Female | 100 |

Removable, reusable and recyclable formwork spacer. Approx. 20 reuses.

This formwork spacer that is not lost inside the concrete wall, thus avoiding possible leakage that may arise between the gap of the conventional PVC tube and the concrete.

Maximum wall strenght = 20 cm Maximum tie rod diamter: Ø 17 mm

To be removed with the RiveOut Tool (033225) or RiveOut 21 Tool (033733).

RIVEPIPE 27

Compressive strength: 500kgF

| PERI Arti- cle Nr. | Length in mm | Inside Ø mm | Outside Ø mm | Designa- tion | Pcs per Bag / Box / Sack |

| 033200 | 50 | 28 - 30 | External plate | 70 | 200 | 400 |

Mechanical system designed for a watertight and hermetic sealing of the formwork holes.

Material of outer washer (finish): Plastic (different colours possible on request) Material of rivet: Zinc platted

The operator performance is estimated at 360 holes/hour with a manual riveter (033206 or 033207) and at 500 holes/hour with an electric riveter (033576). Can be applied in any weather and temperature conditions.

- Water pressure test up to 3 bar
- Water penetration test according to EN 12390 8 up to
- Ageing in chemicals and durability
- Hermetic sealing against Radon gas
- Acoustic resistance according to EN ISO 10140-2
- Fire behaviour: Class E according to EN 13501 1:2007 + A1:2010

| 033574 | 55 | 28-30 | Exter- nal | 8 bar | 62 | 150 | 350 |
| 033575 | 55 | 28-30 | Internal | 8 bar | 62 | 150 | 350 |

Mechanical system designed for a watertight and hermetic sealing of the formwork holes.

Material of outer washer (finish): Stainless steel

Material of rivet: Stainless steel

The operator performance is estimated at 360 holes/hour with a manual riveter (033206 or 033207) and at 500 holes/hour with an electric riveter (033576). Can be applied in any weather and temperature conditions.

- Water pressure test up to 5 or 8 bar
- Ageing in chemicals and durability
- Hermetic sealing against Radon gas
- Acoustic resistance according to EN ISO 10140-2
- Fire behaviour: Class E according to EN 13501 1:2007 + A1:2010
- Fire resistance: El240 according to EN 1363 1

RIVESTOP SS MX15

For direct water contact on both sides up to 8 bar

OKTAGON is a one-piece formwork spacer, resistant to acids and liquor, which are common on construction site.

The 3-piece version is delivered incl. plugs. Custom lengths available on request. PVC-free.

OKTAGON Cone

| PERI Article Nr. | For tube Ø mm | Pcs per Bag / Box / Sack | Pcs / Pallet |
|------------------|---------------|-----------------------------|--------------|
| 032147 | 22 / 26 | 200 | 5,000 |

Distance cone for creating waterproof formwork spacers. Custom made lengths can be made, by using an OKTAGON cone and a 22/26 tube that has to be cut down 8 cm less than the required wall thickness.

OKTAGON Plug

| PERI Article Nr. | Pcs per Bag / Box / Sack | Pcs / Pallet |
|------------------|-----------------------------|--------------|
| 032148 | 200 | 25,000 |

OKTAGON® plug 22 for waterproof sealing of OKTAGON cones. May only be hammered into place, no glue required.

OKTAGON-Plus

Formwork spacer OKTAGON-PLUS

Formwork spacer OKTAGON®-PLUS 22 for tie rod Ø 15 / 17 mm.

Made out of one piece (PVC-free).

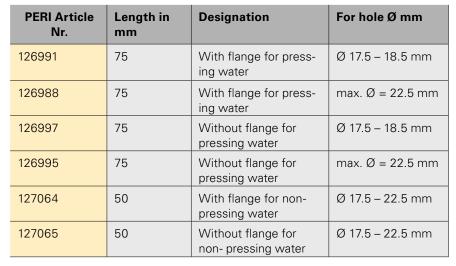

Other length available on request.

- Water leakage
- Fire behaviour F180
- Airborne sound insulation
- Suitable for drinking water
- Aggressive, chemical, poluted water

MAXIMO Stopper

Stopper MX15

Mechanical screw-in waterstop for MAXIMO 15 anchor holes. Package unit 25 pcs. To be installed with article 126999 - Stud Spanner MX15.

Test certificates

- Water penetration test up to 5 bar according to EN 12390 8
- Acoustic resistance according to EN ISO 10140-2
- Fire resistance: F90 according to EN 1363 1

Stopper MX18

| PERI Article Nr. | Length in mm | Designation | For hole Ø mm |
|---------------------|--------------|--|------------------|
| 127430 | 75 | With flange for press- ing water | Ø 24.5mm |

| 033360 | 32 | 100 | 500 | 9,000 |
| 033361 | 34 | 100 | 500 | 9,000 |

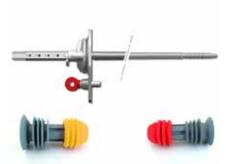

Swellable plug for pressure resistant and watertight sealing of formwork spacers up to 6 bar. Suitable for slurry and liquid manure.

Suited for PVC, fiber cement, and steel spacers. Simple installation with a rubber hammer.

Test certificates:

- Water penetration depth up to 6 bar
- BBA Agrément Certificate

Hydrophilic sealing plug MX15

| PERI Article Nr. | For hole Ø | Pcs per Bag / Box / Sack | Pcs / Big Bag | Pcs / Pallet |
|---------------------|--|-----------------------------|---------------------------|----------------------------------|
| 033362 | Red (17.5- 18.5mm) – Yellow (max. 22.5mm) | 100 Red and 100 Yellow | 500 Red and 500 Yellow | 9,000 Red and 9,000 Yellow |

Swellable plug for pressure resistant and watertight sealing of MAXIMO 15 tie points up to 5 bar. Suitable for slurry and liquid manure.

Suited for PVC, fiber cement, and steel spacers. Simple installation with a rubber hammer.

Test certificates:

■ Water penetration depth up to 5 bar

Fibre concrete sealing plugs

FB-Aktivstop

| 033369 | 39 | 50 | 500 | 9000 | 39-60 |

Swellable UFO for pressure resistant and watertight sealing of concrete cracks around formwork spacers up to 6 bar.

Test certificates:

- Water penetration depth up to 6 bar
- BBA Agrément Certificate

Hydrophilic Sealing Ring

| PERI Article Nr. | Dimension in mm | Pcs per Bag / Box / Sack | Pcs / Big Bag | Pcs / Pallet |
|---------------------|-----------------|-----------------------------|------------------|--------------|
| 033376 | 20 x 2 | 200 | 5,000 | 90,000 |
| 033377 | 24 | 100 | 2,500 | 45,000 |

Swellable sealing ring for pressure resistant and watertight sealing of concrete cracks around formwork spacers up to 6 bar.

Test certificates:

■ Water penetration depth up to 6 bar

Hydrophilic Sealing Connector

Without closing strip

| PERI Article Nr. | Dimension in mm | Pcs per Bag / Box / Sack | Pcs / Big Bag | Pcs / Pallet |
|---------------------|-----------------|-----------------------------|------------------|--------------|
| 033370 | 15 | 50 | 500 | 9,000 |
| 033371 | 20 | 50 | 500 | 9,000 |
| 033372 | 23 | 50 | 500 | 9,000 |
| 033373 | 26 | 50 | 500 | 9,000 |
| 033374 | 30 | 50 | 500 | 9,000 |

The Sealing Connector is the perfect solution for heavy-duty concrete structures where formwork tie bars remain in situ. Made from synthetic, water-swellable rubber that prevents moisture infiltration fully.

Connectors are placed on the tie rod and fixed by using the Sealing UFO or Sealing Ring.

Test certificates:

Water penetration depth up to 6 bar

Hydrophilic Sealing Connector with strip

With closing strip

| PERI Article Nr. | Dimension in mm | Pcs per Bag / Box / Sack | Pcs / Big Bag | Pcs / Pallet |
|---------------------|-----------------|-----------------------------|------------------|--------------|
| 033375 | 15 | 50 | 400 | 7,200 |

The Sealing Connector is the perfect solution for heavy-duty concrete structures where formwork tie bars remain in situ. Made from synthetic, water-swellable rubber that prevents moisture infiltration fully.

Connectors are placed on the tie rod and fixed by using the closing strip.

Test certificates:

■ Water penetration depth up to 6 bar

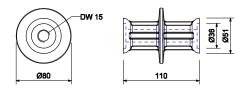

Metal waterstop

Waterstop Center Piece

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|----------------------|
| 031150 | 0.83 | For DW 15 or B 15 |

For anchoring with Tie Rod DW 15 and B 15.

Joint sealing solutions

Bentobar +

Waterproof up to 6 bar

| PERI Article Nr. | Dimension in mm | Туре | Pcs / Box | Pcs / Pallet |
|---------------------|-----------------|---------------------|-----------|------------------------|
| 033388 | 20 x 10 | Standard (Black) | 5 x 10 m | 60 x 50 m = 3,000 m |
| 033389 | 20 x 10 | Standard (Green) | 5 x 10 m | 60 x 50 m = 3,000 m |
| 033391 | 20 x 25 | Standard (Black) | 6 x 5 m | 36 x 30 m = 1,080 m |
| 033392 | 20 x 25 | Standard (Green) | 6 x 5 m | 36 x 30 m = 1,080 m |

Bentonite self-expanding sealing bar for sealing construction joints up to 6 bar. Even after repeated wet-dry cycles, Bentobar+ maintains a perfect seal thanks to its high rubber content.

Accessories:

■ Fixing Glue (033395), Swellable Paste (033396) and Wire Mesh (033394)

Test certificates:

- General Building Code Test Certificate (abP)
- AVIS Technique
- BBA Agrément Certificate

Bentobar + Salt

Waterproof up to 6 bar

| PERI Article Nr, | Dimension in mm | Туре | Pcs / Box | Pcs / Pallet |
|---------------------|-----------------|-----------------------|-----------|---------------------|
| 033390 | 20 x 10 | Salt version (Red) | 5 x 10 m | 60 x 50 m = 3,000 m |
| 033393 | 20 x 25 | Salt version (Red) | 6 x 5 m | 36 x 30 m = 1,080 m |

Bentonite self-expanding sealing bar for sealing construction joints up to 6 bar. For salt water up to 3w% and contaminated water. Even after repeated wet-dry cycles, Bentobar+ maintains a perfect seal thanks to its high rubber content.

Accessories:

■ Fixing Glue (033395), Swellable Paste (033396) and Wire Mesh (033394)

- General Building Code Test Certificate (abP)
- BBA Agrément Certificate

Polybar +

Waterproof up to 6 bar

Polybar+ self-expanding sealing bars are based on a hydrophilic synthetic rubber and are available in:

- standard version (blue)
- a salt version (yellow) for salt water up to 3w%, manure and slurry
- a superswell version (orange) for use under highly saline conditions up to 10w%

For a watertight sealing for construction joints up to 6 bar. Retains its own shape after multiple dry-wet cycles.

Accessories:

■ Fixing Glue (033395), Swellable Paste (033396)

Test certificates:

- General Building Code Test Certificate (abP)
- BBA Agrément Certificate

Polybar + Rain protect

Waterproof up to 6 bar

| PERI Article Nr, | Dimension in mm | Туре | Pcs / Box | Pcs / Pallet |
|---------------------|-----------------|-------------------------|-----------|------------------------|
| 033385 | 20 x 5 | Rain protect (Black) | 5 x 10 m | 60 x 50 m = 3,000 m |
| 033386 | 20 x 10 | Rain protect (Black) | 9 x 10 m | 24 x 90 m = 2,160 m |

Polybar+ RP self-expanding sealing bars are based on a hydrophilic synthetic rubber and are especially developed for delayed swelling in rain water. The swelling process is 4 times lower than for the Polybar+ standard waterstop.

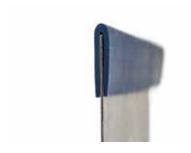

For a watertight sealing for construction joints up to 6 bar. Retains its own shape after multiple dry-wet cycles.

Accessories:

■ Fixing Glue (033395), Swellable Paste (033396)

- General Building Code Test Certificate (abP)
- BBA Agrément Certificate

U-shaped sealing bar

| PERI Article Nr. | Dimension in mm | Pcs / Box | Pcs / Pallet |
|---------------------|-----------------|------------|------------------------|
| 033387 | 30 | 20 x 2,4 m | 24 x 48 m = 1,152 m |

Hydrophilic water stop based on synthetic rubber that acts as a watertight sealing for construction joints in combination with a press plate.

Retains its own shape after multiple dry-wet cycles.

Mechanical fixation possible with a glue.

Test certificates:

■ BBA Agrément Certificate

Pipe strap

Waterproof up to 5 bar

| PERI Article Nr. | | Pcs per Bag / Box / Sack | Pcs / Pallet |
|---------------------|-------------|-----------------------------|--------------|
| 033378 | Ø 110 - 125 | 150 | 3,600 |

The pipe strap is made of hydrophilic water swellable synthetic rubber. It acts as a high pressure water sealing around plastic pipes in concrete constructions. Sealing up to 5 bar water pressure.

Thanks to its smart design, sealing of different pipe diameters is ensured.

Test certificates:

BBA Agrément Certificate

Wire mesh

| PERI Article Nr. | Length in m | Pcs per Bag / Box / Sack |
|------------------|-------------|-----------------------------|
| 033394 | 1.00 | 30 |

Metal wire mesh for the fixation of Bentobar+ or Polybar+.

Fixing Glue

For Polybar+ and Bentobar+

| PERI Article Nr. | Main pack- aging in | Quantity in main packaging | Pcs / carton | Cartons / Pallet |
|---------------------|------------------------|----------------------------|--------------|---------------------|
| 033395 | Cartridge | 290 ml | 12 | 96 |

Fxing glue ensures fast and strong fixation of water swellable sealing bars to concrete. The fast skin formation and curing allows concrete casting after a few hours. Moreover, it has excellent adhesion strength even on wet concrete surfaces. Fixing glue can be applied for both Polybar+ and Bentobar+.

More information on request!

■ BBA Agrément Certificate

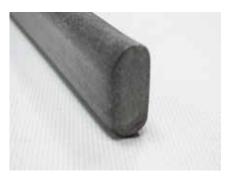

Swellable Paste

| PERI Article Nr. | Main pack- aging in | Quantity in main packaging | Pcs / carton | Cartons / Pallet |
|---------------------|------------------------|----------------------------|--------------|---------------------|
| 033396 | Cartridge | 310 ml | 12 | 120 |

Water swellable paste is a high quality, one component polyurethane adhesive which swells incontact with water. Upon contact with water, the paste can expand up to 450% of its original volume. Can be applied both for Polybar+ and Bentobar+.

Quellmax Blackstop

Waterproof up to 7 bar

| PERI Article Nr. | Dimension in mm | Pcs / Box | Pcs / Pallet |
|---------------------|-----------------|-----------|---------------------|
| 033593 | 10 x 20 | 14 x 5 m | 30 x 70m = 2,100m |
| 033588 | 16 x 21 | 6 x 5 m | 30 x 30 m = 900m |
| 033589 | 18 x 24 | 6 x 5m | 30 x 30 m = 900m |

Swellable bentonite waterstop tape for the sealing of structural joints which are exposed constantly or temporarily to water up to 7 bar water pressure.

Even after repeated wet-dry cycles, Quellmax Blackstop remains its shape.

Test certificates:

- General Building Code Test Certificate (abP)
- HYG Drinking Water Approval
- Slurry and animal manure resistance
- European Technical Assessment (ETA)

Quellmax Plus

Waterproof up to 7 bar

| PERI Article Nr. | Dimension in mm | Pcs / Box | Pcs / Pallet |
|---------------------|-----------------|-----------|---------------------|
| 033590 | 16 x 21 | 6 x 5 m | 30 x 30 m = 900m |
| 033591 | 18 x 24 | 6 x 5 m | 30 x 30 m = 900m |

Swellable bentonite waterstop tape for the sealing of structural joints which are exposed constantly or temporarily to water up to 7 bar water pressure. The special coating prevents premature swelling for up to 3 days.

Even after repeated wet-dry cycles, Quellmax Plus remains its shape.

- General Building Code Test Certificate (abP)
- HYG Drinking Water Approval
- Slurry and animal manure resistance
- European Technical Assessment (ETA)
- Water pressure up to 7 bar

Fitting bar

| PERI Article Nr. | Length in mm | Pcs per Bag / Box / Sack |
|---------------------|--------------|-----------------------------|
| 033594 | 1,000 | 30 m |

Metal wire mesh for the fixation of Quellmax BlackStop or Quellmax Plus.

Adhesive CEM805

| PERI Article Nr. | Main pack- aging in | Quantity in main packaging | Pcs / carton |
|---------------------|------------------------|----------------------------|--------------|
| 033600 | Cartridge | 290 ml | 20 |

CEM 805 is an odorless adhesive / sealant which reacts with atmospheric moisture to create an elastic vulcanized rubber seal. It is free of solvents, silicones and isocyanates. It has a neutral cure, is compatible with paints and features excellent chemical resistance.

Used for fixing SilverSeal, DualProof, QUELLMAX, and CEMflex VB Plate.

CEMflex Steel Plate Waterstop

| PERI Article Nr. | Length in m | Pcs per Bag / Box / Sack |
|------------------|---------------|-----------------------------|
| 116818 | 2.00 x 0.15 m | 50 = 100 m |
| 116819 | 2.00 x 0.10 m | 50 = 100 m |

Consists of a galvanised steel plate encapsulated in a special patented active coating which reacts with water and moisture when embedded in concrete to provide a watertight construction joint up to 8 bar.

Can be installed both pre and post pour and no sticky protection tape to be removed and disposed of from the waterstop prior to use.

No welding required - Simply overlap the elemts by 5 cm.

No premature activation of the coating on contact with rainwater

- CE marked
- Ol-, gasoline- and fuel-resistance test
- BBA Agrément Certificate
- Vattenfall Rapport tested up to 8 bar water pressure
- Drinking Water Approval according to DVGW Code of Practice W 347
- General Building Code Test Certificate (abP)
- The Public German Railway Authority 80 year service life
- Avis Technique

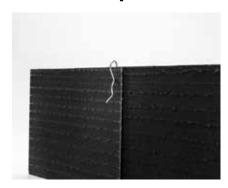

CEMflex Omega holder

| PERI Article Nr. | Pcs per Bag / Box / Sack |
|------------------|-----------------------------|
| 116820 | 100 |

For fixing the CEMflex waterstop to the steel reinforcement pre-pour.

CEMflex clip

| PERI Article Nr. | Pcs per Bag / Box / Sack |
|------------------|-----------------------------|
| 116821 | 50 |

For connecting CEMflex elements simply secure the overlapping ares (5 cm) with a CEMflex Clip.

CEMflex clamping plate

| PERI Article Nr. | Quantity in main packaging |
|---------------------|----------------------------|
| 033596 | 30 |

For connecting CEMflex elements to PVC waterstops.

Injection Hose System CEM11

| PERI Article Nr. | Outside Ø | Туре | Pcs per Bag / Box / Sack | m / Pallet |
|---------------------|-----------|------------------------------------|-----------------------------|------------------|
| 033585 | 11 | Injection tube | 50 m | 50 x 50m = 2500m |
| 033586 | - | Metal Clip | 100 pcs | - |
| 033587 | - | Shutter Con- nector M6 CEM11 | 100 pcs | - |

CEM11 Injection Hose System is a single walled, PVC tube which economically provides a high efficacy joint sealing system. The CEM Injection Tube is designed with conical shaped apertures which provide the outlets to enable the pressurised injection material to enter the concrete matrix and seal the joint.

Multiple injections possible when using acrylate-gel or PU-gel. Single injections possible when using PU / EP Resins.

Test certificates:

- General Building Code Test Certificate (abP)
- Compliance with the Austrian tunnel directive

Quellmax Plus for Injection Hose

| PERI Article Nr. | Dimension in mm | Pcs per Bag / Box / Sack | m / Pallet |
|------------------|-----------------|-----------------------------|-----------------|
| 033592 | 20 x 25 (Ø11) | 30 m | 30 x 30m = 900m |

Swellable bentonite waterstop tape for the sealing of structural joints in combination with the injection hose system CEM11. The special coating prevents premature swelling for up to 3 days.

Even after repeated wet-dry cycles, Quellmax Plus remains its shape.

- General Building Code Test Certificate (abP)
- HYG Drinking Water Approval
- Slurry and animal manure resistance
- European Technical Assessment (ETA)

CEMswell for Injection Hose

| PERI Article Nr. | Dimension in mm | Pcs per Bag / Box / Sack |
|------------------|-----------------|-----------------------------|
| 033595 | 23 x 15 (Ø11) | 25 m |

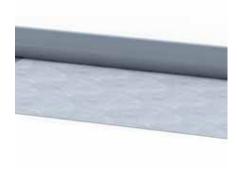

Hydrophillic Swelling Rubber for the sealing of joints in combination with the injection hose system CEM11. CEMswell remains dimensionally stable, on contact with water and is tested up to 5 bar water pressure.

CEMswell has been developed for the successful sealing of joints up to 5 bar water pressure.

- General Building Code Test Certificate (abP)
- Slurry and animal manure resistance
- Water pressure up to 5 bar

Surface sealing solutions

DualProof

| PERI Article Nr. | Length in m | Туре | m² per Roll | m² / Pallet |
|---------------------|-------------|---------------------|-------------------|-----------------------------|
| 033598 | 1.5 x 20 m | A - 0.8 mm tick | 30 m ² | 14 rolls = 420m² |
| 033599 | 1.5 x 20 m | A+ - 1.2mm thick | 30 m ² | 4 rolls = 420m ² |

The DualProof A Membrane System consists of a special non-woven PP-Fleece, which is co-extruded with a highly flexible, water and gas resistant, TPO-FPO membrane. The fresh concrete forms a mechanical bond with the PP-Fleece and prevents water tracking between the membrane and the concrete.

Designed for the waterproofing and protection of below ground reinforced concrete.

Protects concrete against chemical, salt and sulphate attack.

Test certificates:

- General Building Code Test Certificate (abP)
- CE-Certificate
- DualProof A can be used in construction joints and has been tested as a surface sealing system that is water tight for joints and cracks up to 3.2 mm and a water pressure of up to 6.9 bars.
- Radon and radon gas tight
- Use in salt water areas

SilverSeal

| PERI Article Nr. | Length in m | m² per Bag / Box / Sack | m² / Pallet |
|------------------|-------------|----------------------------|-----------------------------|
| 033597 | 2 x 50 m | 100 m ² | 5 rolls = 500m ² |

SilverSeal is a doublesealing and self-healing waterproofing system for below grade waterproofing.

It is aneedle punched non-woven fleece treated with water absorbing and water swelling polymer combined with a high-density PE-membrane.

SilverSeal eliminates the need for all conventional waterproofing materials such as bituminous liners, coatings and synthetic membranes of all kinds.

SilverSeal can be both pre-applied and post-applied.

- General Building Code Test Certificate (abP)
- CE-Certificate

Tools

RIVET Tool Manual

| PERI Article Nr. | Weight / pcs in kg | Length in mm |

| 031644 | 0.59 | 58 |
| 031656 | 0.60 | 67 |
| 031657 | 0.66 | 100 |

For holding DK, SK or KK Concrete Cones with corresponding diameter during installation.

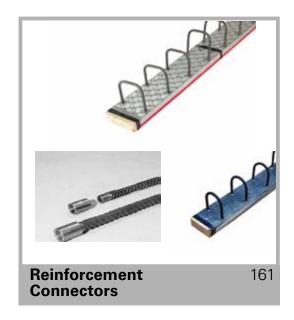

Reinforcement Technology

Balcony Connectors

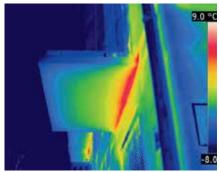

Load bearing connectors providing thermal insulation between inside and outside building elements.

Why is it necessary to install an insulation balcony adapter?

The insulated balcony connectors are load bearing components that provide thermal insulation between reinforced concrete building elements. They are used to improve thermal insulation in the junction of cantilever slabs made of reinforced concrete and the inside of buildings. Common applications include cantilever balconies, recessed balcony connections, brackets, parapet walls, porches, platforms, etc.

The use of balcony adapters for thermal insulation reduces heat losses which arise from joint-induced and geometric thermal bridges. Uninsulated joint areas also lead to a considerable lowering of the building component surface temperature and an increase in the risk of condensation and mould formation. The use of insulated balcony adapters provides a good heat distribution pattern and heating cost savings.

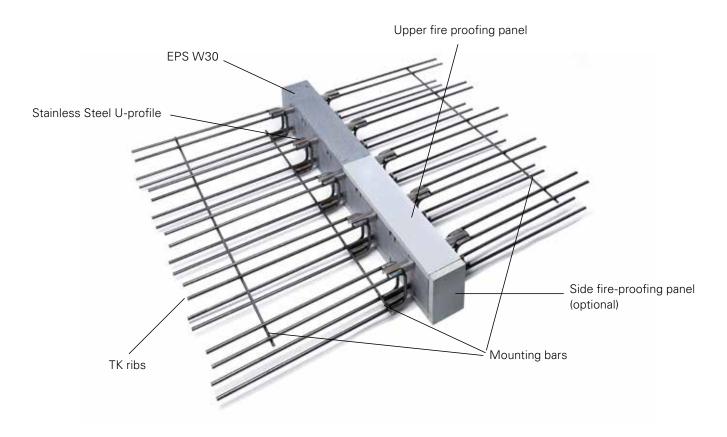

Uninsulated connection area

Connection with insulated balcony adapter

General structure

- Structural truss made of independent ribs
- The individual ribs run through the EPS panel
- The elements consist of a uniform U-shaped stainless-steel profile, each 10 mm in diameter (material no. 1.4571 C 850 according to EN 10088-2) as well as ribbed reinforcing steel stirrups (B 550 according to OENORM B4707) which are welded to the flanges of the upper and lower chord
- 80 mm (F60) or an 120 mm (F120) thick expanded polystyrene panel (EPS W30 according to EN 13163)
- For special fire protection requirements (F120), fire-proofing panels are glued onto the thermal insulating elements
- The number of ribs depends on the project specific loads

Attika Element

AT/2 Thermokorb

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|----------------------------|
| 033188 | 6.00 | With fire panel for R60 |
| 033171 | 7.50 | With fire panel for REI120 |

The AT/2 is a load bearing connector providing thermal insulation and is used for the transfer of axial forces, shear forces and bending moments between parapet wall and floor slabs.

A Thermokorb is suitable for building element thicknesses from 160 mm to 240 mm. The individual ribs acome in heights of 110 mm, 130 mm, 150 mm, 170 mm and 190 mm.

Technical documentation and certification available on request. Special sizes are as well available upon request.

TKF balcony connector

TKF

| 033125 | 38.50 | 1,000 | 10 | With fire panel for R60 | |

The TKF type series is used as split element primarily for unsupported cantilever balcony slabs, especially for the requirements of the prefabricated concrete elements industry (precast slab elements). One part (the compression chord) is installed in the precast slab element in the precast concrete factory; the second part (the tension chord) is then put in place on site. Minimum slab thickness is 180 mm.

TKA balcony connector

| 033111 | 21.50 | 1,000 | 6 | With fire panel for R60 | |
| 033112 | 24.50 | 1,000 | 7 | With fire panel for R60 | |
| 033113 | 28.00 | 1,000 | 8 | With fire panel for R60 | |
| 033114 | 31.50 | 1,000 | 9 | With fire panel for R60 | |
| 033115 | 34.50 | 1,000 | 10 | With fire panel for R60 | |

The TKA balcony connector is primarily suitable for transferring shear forces for applications in supported balconies, recessed balconies, parapet walls and different types of prefabricated connectors. Thermal insulation.

Differnet projections of stirrups are available:

- Standard = 120 mm
- V1 = 170 mm
- V2 = 220 mm

Installation of the TKA V1 or V2 type series also enables the transfer of bending moments and shear forces for level changes and cantilever slab connections to walls (up to a max. of 5 ribs per 1 m element).

The bottom leg of stirrup is available in two variants:

- G ... straight (also for applied forces with changing signs)
- E ... bent up (e.g., for precast concrete floor slabs)

A Thermokorb is suitable for building element thicknesses from 160 mm to 240 mm. The individual ribs acome in heights of 110 mm, 130 mm, 150 mm, 170 mm and 190 mm.

TKA balcony connector - Rib version

TKA - RIB version

| PERI Arti- cle Nr. | Weight / pcs in kg | Length in mm | Number of ribs | Туре |
|-----------------------|-----------------------|--------------|----------------|----------------------------|
| 033180 | 4.00 | 130 | 1 | With fire panel for REI120 |
| 033181 | 8.00 | 230 | 2 | With fire panel for REI120 |
| 033182 | 11.50 | 330 | 3 | With fire panel for REI120 |
| 033183 | 15.50 | 430 | 4 | With fire panel for REI120 |
| 033184 | 19.00 | 530 | 5 | With fire panel for REI120 |
| 033185 | 23.00 | 630 | 6 | With fire panel for REI120 |

| 033134 | 42.00 | 1,030 | 9 | With fire panel for REI120 |
| 033135 | 46.50 | 1,030 | 10 | With fire panel for REI120 |
| 033096 | 9.50 | 1,030 | 2 | With fire panel for R60 |
| 033097 | 14.00 | 1,000 | 3 | With fire panel for R60 |
| 033098 | 18.00 | 1,000 | 4 | With fire panel for R60 |
| 033099 | 22.50 | 1,000 | 5 | With fire panel for R60 |
| 033101 | 26.50 | 1,000 | 6 | With fire panel for R60 |
| 033102 | 30.50 | 1,000 | 7 | With fire panel for R60 |
| 033103 | 35.00 | 1,000 | 8 | With fire panel for R60 |
| 033104 | 39.00 | 1,000 | 9 | With fire panel for R60 |
| 033105 | 43.50 | 1,000 | 10 | With fire panel for R60 |

The TKM type series primarily serves to transfer bending moments and shear forces (interaction).

Main application areas:

- Unsupported cantilever balcony slabs
- Continuous slabs (indirect support)
- Special solutions are possible, e.g. for level changes, cantilever slab connections to walls, wall connections

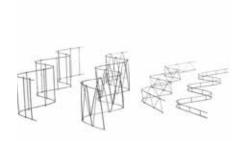

The bottom leg of stirrup is available in two variants:

- G ... straight (also for applied forces with changing signs)
- E ... bent up (e.g., for precast concrete floor slabs)

In case of internal forces with alternating signs, TKM/G ribs must be used. TK-M/E ribs are used with precast concrete floor slabs to prevent a collision of the ribbed compression chord with the precast concrete floor slab.

A Thermokorb is suitable for building element thicknesses from 160 mm to 240 mm. The individual ribs acome in heights of 110 mm, 130 mm, 150 mm, 170 mm and 190 mm.

Single layer element. Different steel grades and special sizes available on request.

PLEXUS® is a prefabricated rebar continuity system for reinforced concrete construction and provides a simple and cost effective method of reinforcement continuity across concrete joints.

The surface texture of the box are classified in the category "smooth" according to DBV (German Society for Concrete and Construction Technology) datasheet "Bending back concrete steel and requirements for protective boxes".

Single layer element. Box width 11.2 cm.

PYRAPLEX® is the advanced development of the PLEXUS® box with indentations for high share forces. The special pyramid design of the box ensures a biaxial transfer of the shearing forces across the length of the construction joint.

The surface texture of the box are classified in the category "geared" according to DBV (German Society for Concrete and Construction Technology) datasheet "Bending back concrete steel and requirements for protective boxes".

Different steel grades and special sizes available on request.

Stirrup width 9 cm.

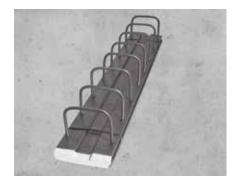

The prefabricated Stabox® standard reinforcement connection with roughened surface guarantees intensive anchoring with the concrete and meets the highest shear force requirements for an indented construction joint.

Surface class according to DBV leaflet:

- Interlocked /indented (transverse force capacity transverse to the joint)
- Smooth(shear force capacity parallel to the joint)

Different steel grades and special sizes available on request.

Metal couples for connecting reinfocement bars. They are used when the conventional splice joint is not practicable or not allowed and where rebending is not possible due to the rebar diameter. Suitable for permanent and dynamic loading.

For freely rotatable cupler connections.

Metal couples for connecting reinfocement bars. They are used when the conventional splice joint is not practicable or not allowed and where rebending is not possible due to the rebar diameter. Suitable for permanent and dynamic loading.

For non-freely rotatable cupler connections.

Technical Data on request!

- General Building Code Test Certificate (abP)
- ETA approval
- KOMO certificate
- Approval for Romania
- Conform to Eurocode 2 (NEN/DIN/BS EN 1992-1-1), ACI 318 type 1-2, test standard ISO 15835
- Conform to the test requirements of ISO 15835:2009, AC133:2010, EN 1998-1:2010-12, Eurocode 8, EN 1998-1/NA: 2011-01, national annex (category S1 and S2)

Reinforcement Accessories

Heat-treated wire

100 pcs packed in a 20 kg bucket

Heat-treated wire for steel reinforcement. The heat-treatment ensures flexibility and durability of the wire, whilst being very soft and easy to handle.

A quality certificate 3.1 according to EN 10204:2004 is enclosed to every order.

30 kg coii

Steel Nail

DRUPAK

DRUPAK 1 width 36 mm

| PERI Article Nr. | Concrete cover mm | Length in m | m / Bundle | m / Pallet |
|---------------------|-------------------|-------------|------------|------------|
| 032068 | 15 | 2 | 100 | 6,000 |
| 032069 | 20 | 2 | 100 | 6,000 |
| 032070 | 25 | 2 | 100 | 5,400 |
| 032071 | 30 | 2 | 100 | 5,400 |

Extra strong spacer with large supporting area used for horizontal reinforcement. Made of 100% high quality recycled PE. Other length available on request. Very good concrete flow by large cut outs at the side and on top. Suitable for fair-faced concrete and prefabricated ceiling.

Free of PVC.

DRUPAK 2 width 46 mm

| PERI Article Nr, | Concrete cover mm | Length in m | m / Bundle | m / Pallet |
|---------------------|-------------------|-------------|------------|------------|
| 032072 | 35 | 2 | 60 | 3,900 |
| 032073 | 40 | 2 | 60 | 3,600 |
| 032074 | 45 | 2 | 60 | 3,000 |
| 032075 | 50 | 2 | 60 | 3,000 |

Because of better stability we advice to use Drupak "2" for concrete cover of 35 mm or higher. Other length available on request.

Approved according to DBV specification "Spacers" DBV - c - L2/F.

DRUWA

Width 35 mm

| PERI Article Nr. | Concrete cover mm | Length in | Pcs / Bundle | Pcs / Pallet |
|---------------------|-------------------|-----------|--------------|--------------|
| 033397 | 15 | 80 | 70 | 4,410 |
| 033398 | 20 | 80 | 60 | 3,780 |
| 033399 | 25 | 80 | 40 | 2,800 |
| 033400 | 30 | 80 | 40 | 2,520 |
| 033401 | 35 | 80 | 30 | 2,100 |
| 033402 | 40 | 80 | 30 | 1,890 |
| 033403 | 50 | 80 | 20 | 1,540 |

Large-area spacer with high stability for the lower reinforcement. Other length available on request.

Due to its zigzag shape and staggered feet, good concrete flow is ensured. By turning, the DRUWA can easily used for soft surfaces. Due to its special design the pallets are well stack-able! Therefore optimal saving of freight costs and perfect using of storage room.

Approved according to DBV specification "Spacers" DBV - c - L2.

| 032025 | 50 | 6-20 | 125 | 500 | 7,500 |

The 4-foot is a stable spacer with a large clamping range for middle and heavy reinforcement. Ideal for use in all areas of application in the percast industry and on construciton sites.

Approved according to DBV specification "Spacers" DBV - c - L1/A.

Flat foot spikes are available on request (DBV - c -L2/A).

PVC free. Other sizes available on request.

Made of fibre concrete with notches for support of horizontal mesh and loose bars. All bar spacers over 33 cm long have increased resistance to breakage due to a reinforcing thread. Other sizes available on request.

Contact with the formwork is reduced to a few points due to the notched contact surface. Designed for use with exposed concrete.

Suitable for supporting overlapping individual rebars.

Triangular hook bar spacer

| 032317 | 50 | 7.5 | 250 | 40 |

Made of fibre concrete for horizontal and vertical reinforcement.

Suitable for fair faced and aesthetic concrete. Other sizes available on request.

Approved according to DBV specification "Spacer" DBV - c - L2/F/T/A and according to the Dutch KOMO-certificate.

Cast concrete spacer "Round" with shuttlestock clip

| PERI Ar- ticle Nr. | Designation | Con- crete cover mm | Pcs per Bag / Box / Sack | Kg / Pal- let | Sacks / Pallet |
|-----------------------|---|------------------------------|-----------------------------------|------------------|-------------------|
| 032414 | For vertical and horizontal reinforcement | 25 | 250 | 340 | 40 |
| 032415 | For vertical rein- forcement | 30 | 250 | 410 | 40 |
| 032416 | For vertical rein- forcement | 35 | 250 | 500 | 40 |
| 032417 | For vertical rein- forcement | 40 | 250 | 570 | 40 |

Spacers made out of cast concrete for vertical and horizontal reinforcement with a diameter of 4 - 10 mm. The shuttlecock clips enable simple and fast fixing to the reinforcement. Suitable for use with reinforcements that are not walked on. e.g. in the precast plant.

Minimal surface contact.

Suitable for fair faced concrete.

Cast concrete spacer with shuttlestock clip

| PERI Ar- ticle Nr. | Designation | Con- crete cover mm | Pcs per Bag / Box / Sack | Kg / Pal- let | Sacks / Pallet |
|-----------------------|---|------------------------------|-----------------------------------|------------------|-------------------|
| 032420 | For vertical and horizontal reinforcement | 25 | 250 | 480 | 40 |
| 032421 | For vertical and horizontal reinforcement | 30 | 250 | 610 | 40 |

Metal spacer for the use between two reinforcement layers.

For a height of 3 cm and from H=22 cm to 50 cm the spacer strips are produced in the shape of a ladder (V). All other sizes come in snake shaped (D).

Tested according to the German DBV Guidelines (DBV leaflet "Supports" and Euronorm 2)

Different steel grades and special sizes available on request.

Shipment on pallets is charged separately.

Transport Aids and Accessories

Pallet EP 110

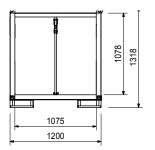

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 123960 | 70.40 |

For stacking and transportation of 25 Side-Mesh-Barriers PMB.

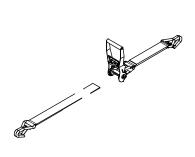

Follow Instructions for Use!

Permissible load-bearing capacity 600 kg.

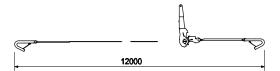

Tension Belt

| PERI Article Nr. | Weight / pcs in kg | Dimensions | Permissble tension force | Туре |
|---------------------|-----------------------|--|--------------------------------|---|
| 051250 | 2.79 | Total length 5,70 m | 2,5 t | PTB 12 |
| 118349 | 3.53 | Total length 12 m, max. span 8 m | 2,5 t | - |
| 107895 | 1.43 | Total length 6m | 1,0 kN | STLB - For anchoring of slab tables |

Two parts. Consider information on the belt label and follow Instructions for Assembly and Use!

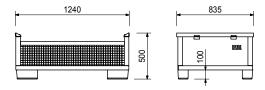

Hardware Box

| PERI Article Nr. | Weight / pcs in kg | Length in cm | Width in cm | Туре |
|---------------------|-----------------------|--------------|-------------|---------|
| 025670 | 66.50 | 120 | 80 | painted |

For stacking and transportation of formwork and scaffold components.

Capacity approx. 28 m³. Permissible load-bearing capacity 1.5 t. Follow Instructions for Use!

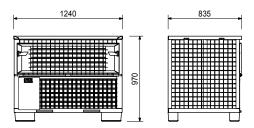

Crate Pallet 80 x 120

| PERI Article Nr. | Weight / pcs in kg | Туре | Length in mm | Width in mm |
|---------------------|-----------------------|------------|--------------|-------------|
| 065016 | 88.20 | painted | 1,240 | 835 |
| 065068 | 88.30 | galvanized | 1,240 | 835 |

For stacking and transportation of formwork and scaffold components.

Load-carrying capacity 1.5 t. Capacity approx. 75 m³. Follow Instructions for Use at all times.

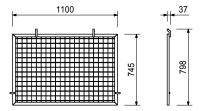

Lid for Grate Pallet 80X120

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|---------|
| 065067 | 9.41 | painted |

For closing Crate Pallets 80 x 120 or Hardware Boxes 80 x 120.

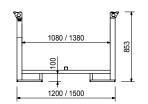

Pallet RP-2 80

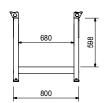

| PERI Article Nr. | Weight / pcs in kg | Width in cm | Height in mm | Туре |
|---------------------|-----------------------|-------------|--------------|------------|
| 103429 | 45.30 | 80 x 150 | 853 (600) | Galvanized |
| 103434 | 38.50 | 80 x 120 | 853 (600) | Galvanized |

For stacking and transportation of formwork and scaffolding components.

Permissible load-bearing capacity 1.5 t. Follow Instructions for Use!

Modul Pallet MP

| PERI Article Nr. | Weight / pcs in kg | Туре | Dimensions in mm | Load capaci- ty |
|---------------------|-----------------------|-------------------------|------------------|--------------------|
| 033275 | 98.00 | Hot-dip galva- nized | 1200 x 800 | 1,5t |

Modular pallet for the logistics of Box-Out formwork. Long formwork elements are stacked crosswise at the top and the small parts are safely stored in the mesh box at the bottom.

It is suitable for forklift operation in the warehouse/construction yard and can be quickly transported from one place of use to the next on the construction site by means of the crane eyes attached at the top.

Rod Rack SG 130

| PERI Article Nr. | Weight / pcs in kg | Туре | Dimension in mm |
|------------------|--------------------|-------------------------|-----------------|
| 033276 | 80.00 | Hot-dip galva- nized | 1200 x 1500 |

Stacking frame for formwork panels or wooden lattice girders. Approx. 3 times more material can be transported than with conventional frames.

Characteristics:

- Quick and safe stacking and removal of the load due to inwardly inclined loading surfaces
- Empty racks can be stacked inside each other to save space
- Easy stacking without interfering uprights
- Simple transport securing with only one tensioning belt
- Fast repositioning thanks to two crane eyes at the top
- Forklift pockets with guide plate

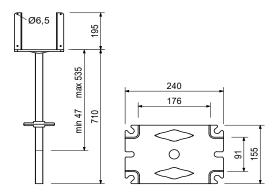

Scaffolding Components

Cross Forkhead TR

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 019950 | 7.77 |

Tilt-resistant head spindle for holding one or two GT 24 or VT 20 Girders. With captive Quick Jack Nut.

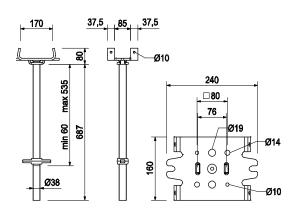

Joint head spindle TR

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 116081 | 7.04 |

Maximum inclination of the head plate on all sides 4.4° . With locking device and captive Quick Jack Nut.

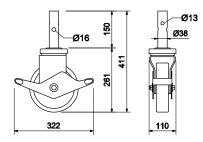

Castor with spigot

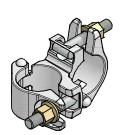

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 101858 | 7.00 |

Castor for mobile scaffolds. Wheel body red.

Permissible load in stopped condition 12 kN.

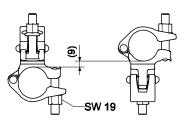

Standard coupler RA 48/48

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 017020 | 1.12 | Galvanized |

For Scaffold Tubes Ø 48 mm.

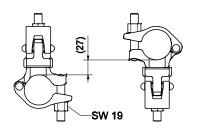

Swivel coupler SW 48/48

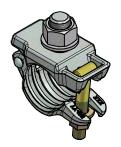

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 017010 | 1.40 | Galvanized |

For Scaffold Tubes Ø 48 mm.

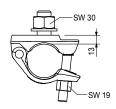

Screw-on coupler 2 HT B

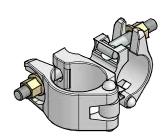

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 131404 | 1.08 |

For screwing Scaffold Tubes \varnothing 48 mm to components up to 9 mm thickness.

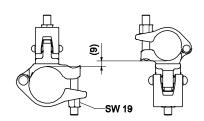

Standard coupler RR 60/48

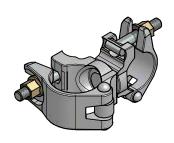

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 017030 | 1.40 | Galvanized |

For Scaffold Tubes \emptyset 48 mm and \emptyset 60 mm.

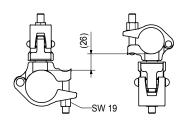

Swivel coupler RS 60/48

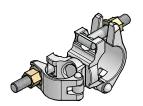

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 017000 | 1.54 | Galvanized |

For Scaffold Tubes \emptyset 48 mm and \emptyset 60 mm.

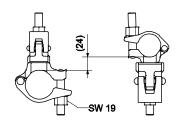

Swivel coupler RS 38/48

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 102400 | 1.10 | Galvanized |

For Scaffold Tubes \emptyset 48 mm and \emptyset 38 mm.

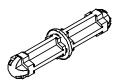

Tension coupler

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 100908 | 1.40 |

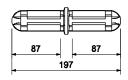

For tensile-proof connections of Scaffold Tubes \varnothing 48 mm.

Tube connector

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 100909 | 1,00 |

Shear connection of Scaffold Tubes \emptyset 48 mm.

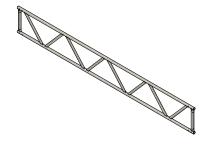

Scaffold Tube

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Dimension in mm |
|------------------|--------------------|--------------|-----------------|
| 026411 | 3.55 | 1,000 | Ø48x3,2 |
| 026412 | 7.10 | 2,000 | Ø48x3,2 |
| 026413 | 10.65 | 3,000 | Ø48x3,2 |
| 026414 | 14.20 | 4,000 | Ø48x3,2 |
| 026419 | 17.75 | 5,000 | Ø48x3,2 |
| 026418 | 21.60 | 6,000 | Ø48x3,2 |

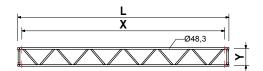

Lattice girder ULS

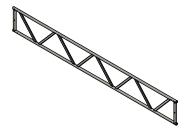

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Width in mm |
|---------------------|--------------------|--------------|-------------|
| 100330 | 41.70 | 425 | 50 |
| 100336 | 50.90 | 525 | 50 |

| 100185 | 54.80 | 525 | 70 |
| 100183 | 64.50 | 625 | 70 |
| 100852 | 83.60 | 825 | 70 |

For bridge openings and system-free application.

Made out of steel.

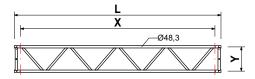

Lattice girder Alu ULS

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Width in mm |
|---------------------|-----------------------|--------------|-------------|
| 101656 | 18.50 | 425 | 50 |
| 101657 | 22.60 | 525 | 50 |
| 101658 | 26.60 | 625 | 50 |
| 101659 | 37.40 | 825 | 70 |

For bridge openings and system-free application.

Made out of aluminium.

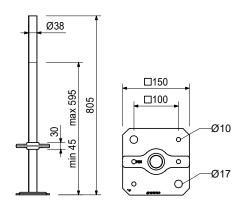

Adjustable Base Plate UJB 38-80/55

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 100242 | 4.57 | 805 |

With captive yellow Quick Jack Nut.

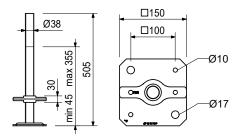

Adjustable Base Plate UJB 38-50/30

| PERI Article Nr. | Weight / pcs in kg | Length in mm |
|------------------|--------------------|--------------|
| 100411 | 3.39 | 505 |

With captive red Quick Jack Nut.

GEDA Maxi

| | | - |
|------|-------|------|
| N/at | arial | lif+ |

| PERI Article Nr. | Weight / pcs in kg | Туре | Load capaci- ty in kg | Lifting speed in m/ min |
|---------------------|-----------------------|-------|--------------------------|-------------------------------|
| 033547 | 65.00 | 120 S | 120 | 20 - 60 |
| 033548 | 65.00 | 150 S | 150 | 15 - 45 |

Ideal helpers for efficient, yet safe transport of scaffolding elements and construction materials. Lifting height = 70 m and power supply = 230 V.

The manual drive of the rope drum is not transported upwards, but simply fastened to the scaffolding at the bottom, while the lightweight swivel arm is attached at the top of the scaffold at the desired height. This even allows quick and easy relocation of the rope hoists during different construction phases.

Swivel Arm

| PERI Article Nr. | Weight / pcs in kg | Load capaci- ty in kg | Lifting speed in m/ min |
|---------------------|-----------------------|--------------------------|-------------------------------|
| 033549 | 12.00 | 300 | 7 - 21 |

Swivel arm for increaying the load capacity of the GEDA Maxi 150 S.

The technical data of the GEDA Maxi 150 S changes as follows:

- Load capacity 300 kg
- Lifting height 16/26 m
- Lifting speed 7/21 m/min

Hook

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 033550 | 0.56 |

Hook for scaffold parts. Suitable for GEDA Maxi.

Hook tie for 5 hooks

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 033551 | 2.30 |

Suitable for GEDA Maxi.

Rope

| PERI Article Nr. | Weight / pcs in kg | Length in m | Ø in mm |
|---------------------|-----------------------|-------------|---------|
| 033552 | 0.10 | 0,35 | 5 |

Rope for hooks. Suitable for GEDA Maxi.

Lifting Sling

| PERI Article Nr. | Weight / pcs in kg | Length in m |
|------------------|--------------------|-------------|
| 033553 | 0.45 | 1,5 |

For lifting boards and similar bulky parts.

Swivel Arm Support

| PERI Article Nr. | Weight / pcs in kg | Load capacity in kg |
|------------------|--------------------|---------------------|
| 033556 | 9.20 | 120 |
| 033657 | 12.90 | 150 |

For mounting swivel arms at any scaffold level.

Steel Wire Rope

| PERI Article Nr. | Weight / pcs in kg | Length in m | Ø in mm |
|---------------------|-----------------------|-------------|---------|
| 033557 | 6.25 | 81 | 4,5 |

Steel Wire Rope for GEDA Maxi. Easy placement of the rope on the swivel arm without having to dismantle the rollers.

Manual Control

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|----------------|
| 033554 | 7.00 | With 30m cable |
| 033555 | 10.55 | With 50m cable |

Manual control with emergency-off button and cable. Suitable for GEDA Maxi.

GEDA 300 Z

| PERI Article Nr. | Weight / pcs in kg | Load capaci- ty in kg | Lifting speed in m/ min |
|---------------------|-----------------------|--------------------------|-------------------------------|
| 033558 | 215.00 | 300 | 30 |

Material hoist for efficient material transport at construction sites. Lifting height = 100m and power supply = 400V. Load platform dimesnions: 0.75 m x 1.4 m x 1.1 m / 1.8 m.

The lightweight 2 m aluminium mast elements can be assembled by one person.

The convenient loading and unloading ramp ensures comfortable access to the platform, which is approved for transporting up to 300 kg. Once at the landing level, the car of the GEDA 300 Z, which can be swivelled by 90 degrees, allows a safe transition and comfortable loading and unloading.

Cable Bin

| PERI Article Nr. | Weight / pcs in kg | Туре |
|---------------------|-----------------------|-----------------|
| 033559 | 48.00 | With 25 m cable |

Cable bin with trailing cable 25 m lifting height (400 V).

Load Platform

| PERI Article Nr. | Weight / pcs in kg | Dimension in m |
|---------------------|-----------------------|----------------------|
| 033560 | 76.00 | 1.4 x 0.75 x 1.1/1.8 |

For GEDA 300 Z.

Scaffold frame

| PERI Article | Weight / pcs |
|--------------|--------------|
| Nr. | in kg |
| 033561 | 25.50 |

For the use with GEDA 300.

Aluminium Mast

| PERI Article Nr. | Weight / pcs in kg | Extension length in m |
|------------------|--------------------|--------------------------|
| 033562 | 27.00 | 2 |
| 033563 | 15.00 | 1 |

Aluminium mast with captive screws for the extension of the base unit.

Mast Tie

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 033564 | 4.00 |

For the fixing of the aluminium masts.

Landing Level Safety Gate ECO

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 033566 | 23.00 |

Landing level safety gate "ECO" 0.85 m wide

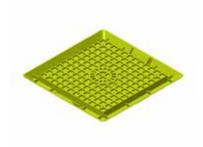

Trailing Cable Guide

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 033565 | 1.50 |

1 pcs per mast tie needed.

Spindle lining UES

| PERI Article Nr. | Weight / pcs in kg |
|---------------------|--------------------|
| 134177 | 0.197 |

PVC accessories for the protection of scaffolding. Weather resistant plastic.

Poly Cover Tube UPC-T

| PERI Article Nr. | Weight / pcs in kg |
|---------------------|--------------------|
| 133907 | 0.015 |

PVC accessories for the protection of scaffolding. Weather resistant plastic.

Poly Cover Rosette UPC-R

| PERI Article Nr. | Weight / pcs in kg |
|---------------------|--------------------|
| 134176 | 0.098 |

PVC accessories for the protection of scaffolding. Weather resistant plastic.

Poly Cover Coupling UPC-C

| PERI Article Nr. | Weight / pcs in kg |
|---------------------|--------------------|
| 134175 | 0.065 |

PVC accessories for the protection of scaffolding. Weather resistant plastic.

Scaffolding bump

| PERI Article Nr. | Weight / pcs in kg |
|---------------------|--------------------|
| 033734 | 0.85 |

Protective cover for posts in modular scaffolding systems.

Advantages:

- Protects pedestrians from injury protruding scaffolding joints
- Quick-click assembly and flawless 360° protection
- Reflective surface for increased visibility

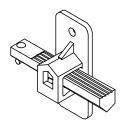

Tools and Accessories

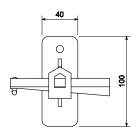

Clamp lock

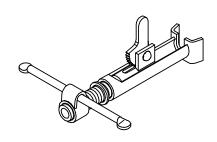

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 030790 | 0.43 |

For anchorage with anchoring wire \emptyset 5 to 10 mm.

| 112588 | 5.52 | 1,180 |

Erection Bar GT/VT

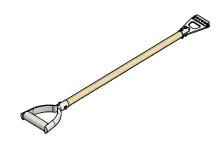

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Туре |
|------------------|--------------------|--------------|------------|
| 070740 | 2.98 | 1,711 | galvanized |

For shuttering of MULTIFLEX with GT 24 or VT 20 girders.

HM Concrete Scraper

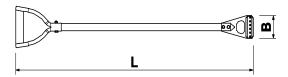

| PERI Article Nr. | Length in mm | Width in mm | Pcs / Pallet |
|---------------------|--------------|-------------|--------------|
| 065019 | 900 | 102 | 240 |
| 065018 | 1,180 | 54 | 160 |
| 065020 | 1,180 | 102 | 160 |
| 065021 | 1,180 | 170 | 120 |

Concrete scraper with ash wood handle, hard-metal reversible cutter and chamfered butt strap made of tool steel.

Spare parts:

- 065022 Butt strap 54/30mm
- 065023 Butt strap 102/30mm
- 065024 Butt strap 170/30mm
- 065025 HM turnover board 16/16mm
- 065026 Wood handle L = 1180mm

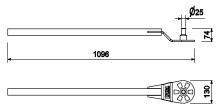

Tie Spanner DW15

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 108129 | 3.48 |

For Wingnut Counterplate DW 15, Wingnut Pivot Plate DW 15 and Wingnut DW 15.

Tensioning clamp MD 250

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032304 | 13.90 |

Tensioning clamp MD 2.5 m, two-piece tensioning clamp for Zemdrain® MD.

Tensioning clamp

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032303 | 0.90 |

Wide-area clamping and tensioning of Zemdrain® Classic across smaller formwork areas. Fix subsequently using staples.

Tensioning device

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 032305 | 7.00 |

Tensioning clamp for fixing Zemdrain.

Adhesive tape

| PERI Aı | ticle Nr. | Weight / pcs in kg | Width in mm | Length in m |
|---------|-----------|--------------------|-------------|-------------|
| 126015 | | 0.25 | 50 | 33 |

Delivery unit: 1 roll (33 m). Made out of PVC.

Rock anchor

| PERI Article Nr. | Weight / pcs in kg | Designation | Pcs / carton |
|---------------------|-----------------------|--|--------------|
| 032548 | 0.36 | Rock anchor (expansion plug) for anchor rod Ø 15 mm, drill hole 35 - 37 mm | 50 |

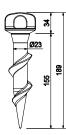

Screw-On Sleeve PERI M16/164

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 123970 | 0.05 |

For temporary mounting of components on reinforced concrete slabs.

Inserted into the fresh concrete immediately after concreting.

Hex Bolt ISO 4017-M16

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Туре |
|---------------------|-----------------------|--------------|------------|
| 123973 | 0.24 | 130 | galvanized |

For assembly of Slab Foots PDF in combination with Screw-On Sleeve PERI M16/164.

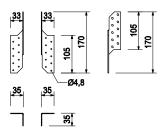

Framing Clip

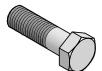

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 018290 | 0.10 |

For connecting crossed timbers or girders. For either right or left handling.

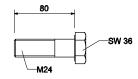

Hex Bolt M24

| PERI Article Nr. | Weight / pcs in kg | Ø in mm | Length in mm | Туре |
|---------------------|-----------------------|---------|--------------|------------|
| 026290 | 0.28 | 10.9 | 50 | galvanized |
| 026430 | 0.33 | 10.9 | 70 | galvanized |
| 026220 | 0.36 | 10.9 | 80 | galvanized |
| 029560 | 0.54 | 10.9 | 120 | galvanized |

Wrench size SW 36. ISO 4014.

Other sizes available on request.

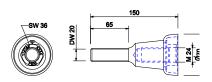

Screw-on Cone-2 M24/DW20

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 114158 | 1.03 |

Anchor System M24. For anchoring climbing systems.

Separate design information on request.

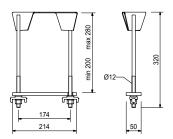

Beam Connector

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 018310 | 1.81 | galvanized |

For connecting crossed timbers or girders. With captive Quick Jack Nuts.

Anchor Bolt PERI 14x150 SW21

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Ø in mm |
|------------------|--------------------|--------------|---------|
| 132998 | 0.21 | 150 | 14 |

Reusable. Approval available.

Separate Design Information on request.

Anchor Positioning Stud DW 15

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|------------|
| 026440 | 0.10 | Galvanized |

For fixing the Anchor Sleeve DW 15 if the plywood formlining is not drilled through.

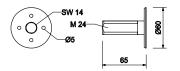

Anchor positioning stud M24

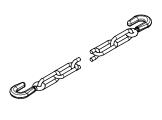

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Туре |
|------------------|--------------------|--------------|------------|
| 115150 | 0.20 | 65 | Galvanized |
| 026420 | 0.12 | 40 | Galvanized |

For fixing the Anchor Sleeve M24 if fixation through formlining is not possible.

Anchor Chain

| PERI Article Nr. | Weight / pcs in kg | Length in m |
|------------------|--------------------|-------------|
| 065073 | 1.37 | 2,5 |

Permissible tension force 3.0 kN.

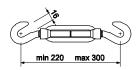

Turnbuckle M12

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 065074 | 0.45 |

Permissible tension force 3.0 kN.

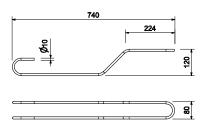

Anchor loop

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 026636 | 1.14 |

To anchor platform systems. Always use in pairs.

Separate design information on request.

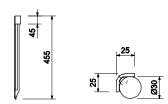

Peg

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Ø in mm |
|------------------|--------------------|--------------|---------|
| 065042 | 1.03 | 455 | 30 |

For fixing the stopend trestle in the ground.

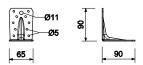

Angle Bracket 90 reinforced

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 123478 | 0.26 |

For diverse timber connections.

Accessory: Spax Screw TX 30 8x20 galvanized (024550)

Anchor Bolt PERI 14/20X130

| PERI Article Nr. | Weight / pcs in kg | Length in mm | Ø in mm |
|------------------|--------------------|--------------|---------|
| 124777 | 0,21 | 130 | 14 |

For temporary fixation to reinforced concrete structures.

Note: See PERI Data Sheet! Drilling Ø 14 mm.

Miscellaneous

NEVOBAHN Standard

| PERI Article Nr. | Width in m | Length in m | Quantity of coil | m² / Pallet |
|---------------------|------------|-------------|------------------|-------------|
| 032816 | 0.5 | 20 | 48 | 480 |
| 032817 | 1.0 | 20 | 24 | 480 |
| 032818 | 1.5 | 20 | 12 | 360 |
| 032819 | 2.0 | 20 | 12 | 480 |
| 032820 | 2.5 | 20 | 12 | 600 |
| 032821 | 3.0 | 20 | 18 | 1,080 |
| 032822 | 4.0 | 20 | 18 | 1,440 |

NEVOBAHN Standard is very durable - it is rot-proof and impervious. It is specifically for foundation wall protection and blinding beds.

Test certifications:

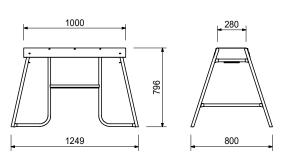

- Determination of resistance to water penetration acc. to DIN EN 1928
- Determination of water tightness acc. to DIN EN 13967
- Determination of water vapour transmission rate acc. to DIN EN ISO 15106-3
- Determination of resistance to tearing (nail shank) acc. to DIN EN 12310-1
- Test report on compressive strength
- CE-certification

PERI Trestle P80

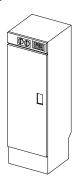

| PERI Article Nr. | Weight / pcs in kg | Туре |
|------------------|--------------------|---------|
| 065051 | 18.50 | painted |

As a single trestle or in combination to form a large area scaffold. Tilt-resistant on all sides.

Drying Locker Klima TS 2000

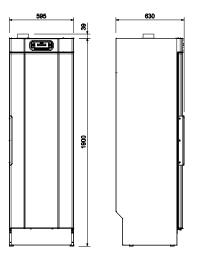

| PERI Article Nr. | Weight / pcs in kg |
|------------------|--------------------|
| 065017 | 56.00 |

Exhaust air dryer for drying wet clothes. With clock timer and continuous temperature control unit.

Follow Instructions for Use!

Voltage 230 V, 50-60 Hz, power consumption 15 W.

Hydraulic Oil

| PERI Article Nr. | Weight / pcs in kg | Туре | Quantity in main packaging |
|------------------|--------------------|--------|----------------------------|
| 131274 | 18.30 | HVI 22 | 201 |
| 057376 | 18.30 | HVI 46 | 201 |
| 131270 | 17.90 | HM 10 | 201 |

High-quality synthetic hydraulic oils for PERI hydraulic units with different viscosities suitable for certain temperature ranges.

Observe the safety data sheet and applicable national safety regulations relating to hydraulic oil, in particular for transport, storage and disposal!

Observe the technical documentation for the hydraulic unit!

Product data sheet on request.

Important information and liability commitments of PERI

- 1 In this context, "PERI" stands for all companies that are part of the PERI Group of Companies which have beenformed out of PERI SE and the companies in which it directly or indirectly holds either more than 50% capital investment or exercises a decisive influence in other ways.
- 2 For the application of the products featured in this brochure (hereinafter referred to as "products"), all applicable laws and standards in the respective countries must be observed by the user of the products (hereinafter referred to as "users").
- 3 The images used in this brochure are photographs of real construction site situations. Therefore, safety and anchor details in particular are not be regarded as a definitive guide to the way the equipment is to be used. Before using products featured in this brochure, user must draw up his own risk assessment and document this in writing.
- 4 In addition, computer graphics are used in this brochure. Such computer graphics are to be regarded as system representations only and do not depict original products in an assembled state. For providing a better understanding of the texts and products, such computer graphics along with the detailed representations shown are also partly reduced to highlight certain aspects and image excerpts.
- 5 The user is responsible for assessing whether safety equipment is required before or during the use of products. The safety equipment not shown in the illustrations of this brochure must however be used by the user. In this respect, the instructions for assembly and use as well as the operating instructions for the products must be taken into consideration by the user.
- 6 Safety instructions as well as load details must always be strictly observed by the user. Changes and deviations to the safety instructions and/or loading data require separate static proof which is to be provided by the user.
- 7 PERI is not the manufacturer of the products presented in this brochure unless this is expressly stated. The product packaging and related documents may contain details which go beyond the information provided in thisbrochure and/or differs from this.
- 8 The user of the products featured in this brochure must always carefully read the labels, warning information, instructions for assembly and use, operating instructions and other instructions which are supplied with the products.
- 9 PERI's liability is excluded if the user,
- uses a product featured in this brochure, or several products, in contradiction to the applicable instructions for assembly and use or operating instructions

- b. uses a product featured in this brochure, or several products, together with his own equipment or components of other manufacturers
- c. fails to provide the required safety assessment before using one or more products
- d. does not comply with all applicable laws and standards in the country where the user uses the product
- e. does not take into consideration the specifics provided on the labels, warning information, safety instructions and/or load details
- 10 Furthermore, PERI is only liable for damages irrespective of the legal grounds in the event of intent and gross negligence. This also applies to damage caused to the buyer due to grossly negligent behaviour of the executive bodies, executive employees of PERI, or vicarious agents of PERI. In addition, PERI shall also be liable for ordinary negligence
- a. for damages arising from injury to life, body and health
- for damages resulting from the breach of an essential contractual duty (cardinal obligation); in this case, the liability of PERI is limited to compensation of foreseeable, typically occurring damage.
- 11 The above restrictions on liability shall not apply if PERI has fraudulently concealed a defect, has assumed a warranty for the quality of the purchased good, or in the event of mandatory liability pursuant to the product liability statute.
- 12 Further liability irrespective of the legal grounds as well as the compensation of damages which has not been incurred by the products themselves is excluded.
- 13 As far as the liability of PERI is excluded or limited, this also applies to the liability of PERI's legal representatives, employees and vicarious agents.
- 14 A reversal of the burden of proof is not connected with the above provisions.
- 15 PERI reserves the right to make changes to the brochure with all its content at any time.
- 16 PERI's General Terms and Conditions apply which are available for download at www.peri.com.
- 17 IErrors and typographical mistakes reserved.
